

DR. SHIVANANDA B N

Consultant - Urology

Qualification

MBBS | MS (Gen Surgery) | MCh (Urology)

Overview

Dr. Shivananda B. N. is a skilled urologist in Bangalore. He’s currently practising as a Consultant - Urology at Manipal Hospital Doddaballapur, Bangalore, where he applies his surgical proficiency and patient-centered approach to a broad spectrum of urological disorders. Dr. Shivananda completed his MBBS followed by an MS in General Surgery, which provided him with a strong foundation in emergency care, complex abdominal procedures, and trauma management. He then pursued an MCh in Urology, gaining expertise in endourology, andrology, reconstructive urology, uro-oncology, and renal transplantation. He further validated his credentials by earning the DrNB in Urology, marking him among the nation’s elite in his specialty. During his rigorous surgical training, Dr. Shivananda participated in a demanding urology residency program, where he managed high-volume inpatient and outpatient services, performed advanced endoscopic and laparoscopic procedures, and led live and cadaveric transplant surgeries. His roles included senior residency and assistant professorship, where he mentored junior trainees in both theory and hands-on surgical techniques, fostering the next generation of

urologists. In his current practice, Dr. Shivananda offers comprehensive urological care, ranging from minimally invasive stone removal and laser prostate surgery to complex reconstructive procedures and robotic-assisted oncology operations. He is proficient in advanced diagnostic and therapeutic interventions, such as percutaneous nephrolithotomy, ureteroscopy, endoscopic valve ablation, and laparoscopic cystectomy. His keen interest in innovation drives him to integrate new technologies into his practice, continually refining surgical protocols to enhance precision and reduce recovery times. Beyond clinical duties, Dr. Shivananda actively engages in continuous professional development through national workshops and masterclasses. His dedication to excellence is reflected in his collaborative work with multidisciplinary teams, ensuring each patient's management plan is holistic and evidence-based. He also contributes to departmental quality improvement initiatives, emphasizing patient safety and outcome measurement.
