

**DR. SWETHA M**

Consultant - Orthodontist

**Qualification**

BDS | MDS (Orthodontics and Dentofacial Orthopaedics)

## Overview

Dr. Swetha M is an aesthetically driven orthodontist in Electronics City with advanced expertise in orthodontics and dentofacial orthopaedics. She is currently a consultant orthodontist in the Dental Department at Manipal Hospital Electronics City, Bangalore, bringing over 20 years of clinical experience in comprehensive dental care with a specialised focus on alignment, occlusion, and facial harmony. She completed her BDS, followed by an MDS in Orthodontics, establishing a strong academic and clinical foundation in corrective and preventive orthodontic care. Over the course of her career, she has developed extensive experience in managing both routine and complex orthodontic cases, with a focus on achieving functional balance alongside aesthetic outcomes. In clinical practice, Dr. Swetha M is involved in detailed orthodontic evaluation, diagnosis, and structured treatment planning for patients across different age groups. She manages conditions such as malocclusion, crowding, spacing issues, jaw discrepancies, and dentofacial irregularities. Her approach is guided by precise clinical assessment and long-term treatment planning, contributing to her recognition as one of the best

orthodontists in Electronics City for corrective dental alignment. Her expertise includes fixed orthodontic appliances, clear aligner therapy, and interceptive orthodontics, allowing her to tailor treatment plans based on individual patient needs. As an Invisalign provider, she offers discreet alignment solutions for patients seeking aesthetic orthodontic correction. She also integrates dentofacial orthopaedic principles in growing patients, addressing skeletal discrepancies at an early stage to optimise facial development and occlusion. Dr. Swetha M has additional expertise in laser dentistry and temporomandibular joint (TMD) management, enabling her to address soft tissue concerns and functional jaw disorders alongside orthodontic treatment. This integrated approach ensures that both structural alignment and functional stability are achieved as part of the treatment outcome. Her proficiency across these areas further establishes her among the best orthodontists in Electronics City for comprehensive orthodontic and dentofacial care. She places strong emphasis on patient education and treatment compliance, ensuring that individuals understand each phase of their orthodontic journey, expected timelines, and maintenance requirements. Her communication style supports better adherence to treatment protocols and contributes to predictable, long-term results. Fluent in English, Kannada, Hindi, Telugu, and Tamil, Dr. Swetha M ensures clear and comfortable communication with a diverse patient base. At Manipal Hospital Electronics City, she provides structured orthodontic care that combines clinical precision with aesthetic planning, focusing on improving dental alignment, facial balance, and overall oral health.
