

DR. KRISHNAN SRINIVASAN

Consultant - Plastic Reconstructive and Aesthetic Surgery

Qualification

MBBS | DNB (General Surgery) | DNB (Plastic Surgery) | Fellowship - Advanced Hand and Microsurgery (Ganga Hospital)

Overview

With over 10 years' experience in restoring form and function as a plastic and reconstructive surgeon in a high-volume tertiary care centre in North India, Dr Krishnan Srinivasan is an expert in managing a wide range of complex reconstructive procedures from head to toe. He completed his MBBS from MS Ramaiah Medical College in 2007, followed by DNB General Surgery from Kochi and DNB Plastic Surgery from Medanta-The Medicity, Gurgaon, which is a premier institute for plastic, reconstructive and aesthetic surgeries in India. He subsequently completed a fellowship in advanced hand and microsurgery from Ganga Hospital, an internationally renowned centre for hand and brachial plexus surgery. He was also selected by the APSI (Association of Plastic Surgeons of India) as the international visiting scholar to ASAN Medical Centre, South Korea, where he received advanced training in lymphedema surgery and super-microsurgery. He is an active member of the American Limb Preservation Society and focuses on strategies for preventing amputation in cases of Diabetic foot. He has also been the lead member of the Diabetic Foot Care Team at Amandeep Hospital, Amritsar, with a focus on early detection

of Diabetic foot complications and prevention of amputations. He has a special interest in peripheral nerve surgeries, including adult and paediatric brachial plexus injuries and has developed vast experience in the management of the same. Over the course of his career, Dr. Krishnan gained extensive experience in a wide range of reconstructive procedures, including: 300+ reimplantation/revascularization procedures, 500+ microsurgical reconstruction for trauma and head and neck and breast cancer, 80+ brachial plexus surgeries, 1000+ complex hand trauma surgeries. He also has over 10 years' experience and expertise in Paediatric trauma, birth defects in children, Cleft lip and palate surgeries, maxillofacial trauma and reconstruction, and post-burn reconstruction. In addition, he is trained in aesthetic procedures like gynaecomastia surgery, liposuction and abdominoplasty. He received the Young Achiever Award from ANBAI for the year 2025 in recognition of his contributions to plastic and reconstructive surgery and patient care.

Fellowship & Membership

- American Society for Surgery of the Hand
- Member of the American Limb Preservation Society
- Association of Plastic Surgeons of India
- KAPRAS – Karnataka Association of Plastic, Reconstructive and Aesthetic Surgeons
- Indian Society for Reconstructive Microsurgery
- Indian Society for Surgery of the Hand
- Diabetic Foot Society of India
- Brachial Plexus Society of India
- Breast reconstructive and aesthetic Surgeons Association
- Past EC Member of the Indian Society for Peripheral Nerve Surgery
- Indian Society for Cleft Lip, Palate and Craniofacial Anomalies
- Interprofessional Wound Care Association

Field of Expertise

- Adult and paediatric hand, peripheral nerve, and brachial plexus surgery
- Microsurgical reconstruction
- Head and neck cancer and breast reconstruction
- Trauma reconstruction – including complex wounds and reimplantation/revascularisation
- Maxillofacial trauma (facial bone fractures) and facial reconstruction
- Congenital defects in children, including hand defects and cleft lip and palate
- Diabetic foot wound management – focused on limb salvage
- Post-burn deformities and complex wound management
- Gynaecomastia, liposuction
