

DR. BHASKAR MV

Consultant - Paediatrics and Neonatology

Qualification

MBBS | MD

Overview

Dr. Bhaskar MV is a dedicated paediatric and neonatal care specialist in Electronic City with focused expertise in the care of newborns requiring specialised medical attention. He is currently practising as a Consultant - Paediatrics and Neonatology at Manipal Hospital Electronic City. Dr. Bhaskar has particular expertise in neonatal care, with specialised fellowship training in neonatology and clinical experience across paediatric and neonatal settings. His focused training and commitment to newborn health make him one of the best neonatologists in Electronic City with expertise in providing comprehensive care for newborns and supporting families through the early stages of life. Dr. Bhaskar MV completed his MBBS and subsequently pursued his MD. He also undertook training as a senior resident, gaining further clinical exposure within a high-volume academic healthcare environment. He later completed a fellowship in Neonatology, strengthening his specialised knowledge and skills in managing newborns requiring advanced and focused medical care. At Manipal Hospital Electronic City, Dr. Bhaskar MV provides specialised care for newborns, with particular attention to the clinical needs of

babies during the neonatal period. Neonatal medicine involves assessing and managing newborns with a range of health concerns, from those requiring closer observation to those needing specialised medical support. His training in neonatology enables him to approach these conditions with an understanding of the unique physiological requirements of newborn patients. Combined with his MD training and subsequent fellowship in neonatology, this experience has contributed to his specialised approach to newborn healthcare. Dr. Bhaskar's practice is focused on supporting the health and well-being of newborns through appropriate assessment and individualised care. Clear communication is particularly important in neonatal medicine, where parents may have concerns about feeding, development, medical monitoring, or the need for specialised intervention. Dr. Bhaskar's focused training enables him to provide specialist neonatal evaluation and care while working as part of a multidisciplinary healthcare team. His approach combines clinical knowledge with careful observation and attention to each newborn's individual needs. Fluent in Kannada, Hindi, and English, Dr. Bhaskar MV is able to communicate comfortably with families from diverse backgrounds. His specialised fellowship training in neonatology, combined with his postgraduate medical education and senior residency experience, supports his commitment to providing focused and comprehensive care for newborn patients at Manipal Hospital Electronic City.
