

DR. CHETHANA PRABHAKAR

Consultant - Pediatrician and Pediatric Nephrologist

Qualification

MBBS | MD (Pediatrics) | Fellowship in Pediatric Nephrology

Overview

Dr. Chethana Prabhakar is a dedicated paediatrician in Electronic City, Bangalore, specialising in comprehensive child wellness and the diagnosis and management of childhood renal disorders. She currently serves as Consultant – Paediatrics and Paediatric Nephrologist at Manipal Hospital Electronic City. Dr. Chethana Prabhakar possesses specialised expertise in routine paediatric health screenings, developmental milestone tracking, paediatric immunisations, childhood nutritional counselling, and advanced management of complex paediatric kidney diseases. Her clinical dedication and child-friendly approach establish her as an experienced paediatric specialist in Electronic City. Dr. Chethana Prabhakar completed her MBBS, followed by an MD in Paediatrics. She subsequently pursued a fellowship in Paediatric Nephrology, gaining specialised training in paediatric renal disorders. Her postgraduate education has equipped her with a broad foundation in paediatric medicine, along with focused expertise in assessing and managing kidney-related conditions in children. At Manipal Hospital Electronic City, Bangalore, Dr. Chethana Prabhakar's clinical expertise includes general paediatrics, wellness checks,

monitoring of growth and development, vaccination, nutritional counselling, and the management of common childhood illnesses. Her specialised fellowship training in Paediatric Nephrology has further strengthened her expertise, particularly in diagnosing and managing childhood renal diseases. She manages children with conditions such as nephrotic syndrome, glomerulonephritis, haematuria, urinary tract infections, renal calculi, and chronic kidney disease. Dr. Chethana Prabhakar's practice brings together preventive paediatric care and specialised renal management, allowing her to support children through both routine healthcare and more complex medical concerns. For children with kidney disorders, she focuses on detailed clinical evaluation and appropriate management of renal conditions, with attention to the child's overall health and development. Her dual expertise enables her to provide a comprehensive approach to children requiring specialised kidney care while also addressing their broader paediatric healthcare needs. Dr. Chethana is a member of the Indian Academy of Paediatrics (IAP) and the Indian Society of Paediatric Nephrology (ISPN), reflecting her engagement with professional organisations within paediatrics and paediatric kidney care. Her clinical interests in both general paediatrics and paediatric nephrology allow her to provide focused care for childhood renal disorders while maintaining a holistic perspective on growth, nutrition, development, and preventive health. Fluent in Kannada, English, Hindi, and Telugu, Dr. Chethana is able to communicate effectively with children and their families from diverse backgrounds. She emphasises clear communication and family involvement in paediatric care, helping parents understand health concerns and treatment plans. Her combination of paediatric expertise and specialised nephrology training supports comprehensive and individualised care for children with both routine and complex healthcare needs, positioning her as an an experienced paediatric specialist in Electronic City
