

**DR. SHASHIDHAR VISHWANATH**

Consultant - Orthopaedics

**Qualification**

MBBS | MS (Orthopaedics) | FIJS (US & South Korea)

## Overview

Dr. Shashidhar Vishwanath is an experienced orthopaedic and joint replacement surgeon in Electronics City with extensive expertise in hip and knee arthroplasty. He is currently practising as a Consultant – Orthopaedics, Manipal Hospital Electronics City, Bangalore, with a specialised clinical focus on primary and revision joint replacement surgeries, arthroscopic procedures, computer-assisted joint replacement, and minimally invasive hip and knee surgery. His advanced fellowship training in joint replacement and minimally invasive techniques has established him as one of the leading joint replacement surgeons in Electronics City for complex hip and knee conditions. Dr. Shashidhar Vishwanath completed his MBBS, followed by an MS in Orthopaedics. He then pursued advanced fellowship training in hip and knee arthroplasty, including the DePuy Arthroplasty Fellowship, which recognised his excellence and keen interest in hip and knee replacement. His additional international training includes fellowships in computer-navigated and robotic knee and hip replacement surgery, advanced hip surgeries in South Korea, and minimally invasive hip and knee replacement surgery in the United

States. His training in minimally invasive techniques further supports his approach to selecting appropriate patients for hip and knee replacement. At Manipal Hospital Electronics City, Dr. Shashidhar Vishwanath's expertise extends to complex revision arthroplasty, where careful assessment and detailed surgical planning are particularly important. Revision joint replacement can involve addressing previous implants, bone loss, altered anatomy, or other complications, requiring a comprehensive understanding of reconstructive techniques. He is skilled in managing hip and knee fractures. These conditions can be particularly challenging when associated with degenerative joint disease or previous joint replacement. With a strong academic background, Dr. Shashidhar has contributed to orthopaedic research and academic forums. He has published in the Indian Journal of Orthopaedics, a PubMed-indexed journal, and presented research at CAOS Korea in Seoul in 2015. He has also presented a paper at the Indian Arthroplasty Association meeting in Goa in 2010. With his specialised expertise in hip and knee arthroplasty, revision joint replacement, arthroscopy, and technology-assisted surgery, Dr. Shashidhar Vishwanath focuses on delivering precise and individualised treatment for patients with complex joint conditions. His combination of advanced fellowship training, academic contributions, and clinical expertise makes him recognised among the leading joint replacement surgeons in Electronics City for comprehensive joint replacement and arthroscopic care.

### Fellowship & Membership

- FIJS (US & South Korea)
- Fellowship in Computer-Navigated and Robotic Knee and Hip Replacement Surgery
- Fellowship in Advanced Hip Surgeries (South Korea)
- Fellowship in Minimally Invasive Hip and Knee Replacement Surgery(US)

## Field of Expertise

- Primary and revision joint replacement surgeries
- Arthroscopic Surgeries

## Languages Spoken

- Kannada
- Hindi
- English
- Marathi

## Awards & Achievements

- Awarded DePuy Arthroplasty Fellowship for excellence and keen interest in Hip & Knee Arthroplasty.
- AIR 64 in AIIMS Postgraduate Entrance Examination.

## Talks & Publications

- Total Knee Arthroplasty in Vascular Malformation – Indian Journal of Orthopaedics (PubMed Indexed)
- Presented research at CAOS Korea, Seoul (2015)
- Presented paper at Indian Arthroplasty Association (IAA), Goa (2010)
