

DR. PRATYUSH MIGLANI

Consultant - Internal Medicine

Qualification

MBBS | MD (Internal Medicine) | Postgraduate Program in Diabetology

Overview

Dr. Pratyush Miglani is a distinguished Physician and Diabetologist in Electronic City with more than 10 years of clinical experience in Internal Medicine, diabetes care, metabolic health, and chronic disease management. He is currently practising as a Consultant – Internal Medicine at Manipal Hospital Electronics City, with a clinical focus on diabetes and metabolic disorders, thyroid conditions, COPD, preventive healthcare, and comprehensive management of acute and chronic medical conditions. His evidence-based and patient-centred approach, combined with a strong emphasis on education and long-term disease management, has positioned him among the best internal medicine doctors in Electronics City. Dr. Miglani completed his MBBS, followed by an MD in Internal Medicine. He has further strengthened his clinical expertise through specialised training in diabetology, thyroid disorders, and respiratory medicine. His additional training includes a Postgraduate Program in Diabetology, a Postgraduate Course in Diabetology, a Thyroid Disorder fellowship, and a COPD Specialisation Course. At Manipal Hospital Electronics City, Dr. Miglani’s expertise includes Type 1 and Type 2 diabetes management, metabolic

disorders, thyroid disorders, COPD, preventive healthcare, and long-term chronic disease management. He also provides comprehensive Internal Medicine care for patients with acute medical concerns and those requiring structured follow-up for chronic conditions. His additional training in diabetology enables him to approach diabetes care alongside related metabolic and endocrine concerns, while his specialised training in thyroid disorders supports the evaluation and management of common thyroid conditions. Through specialised training in COPD, he brings a structured approach to patients with chronic respiratory conditions, with attention to symptom management, risk reduction, preventive measures, and continuity of care. Dr. Miglani's clinical philosophy places strong emphasis on preventive medicine and patient education. Dr. Miglani’s academic interests cover diabetes, Internal Medicine, infectious diseases, metabolic health, and respiratory medicine. His broader publication and presentation record includes work involving genitourinary tract infections in hospitalised patients with Type 2 diabetes, medication reconciliation, iron supplementation in pregnancy, tuberculosis-associated eosinophilia, methanol toxicity, gastric mucormycosis, nocardiosis with pulmonary aspergillosis, portal hypertension associated with visceral leishmaniasis, malaria, and other clinical conditions. He was awarded the Dr. JC Patel and BC Mehta Best Paper Award at APICON 2016 and the Best Poster Award at KAPICON 2011. He was also recognised as an India Today Eminent Doctor South in 2023. Dr. Miglani is affiliated with professional organisations including the International Diabetes Federation (IDF), Association of Physicians of India (API), European Association for the Study of Diabetes (EASD), and Research Society for the Study of Diabetes in India (RSSDI). With his combined expertise in Internal Medicine, diabetology, thyroid disorders, COPD, metabolic health, and preventive care, Dr. Pratyush Miglani provides comprehensive medical management tailored to each patient's clinical needs. His emphasis on evidence-based treatment, clear communication, patient education, and long-term disease

management makes him one of the best internal medicine doctors in Electronics City for personalised, holistic care.
