

DR. M. L. SUJATHA

Consultant - Eye Surgeon

Qualification

MBBS | DNB (Ophthalmology) | FCED

Overview

Dr. Lakshmi Sujatha Maturi is a highly skilled ophthalmologist, cornea specialist, and eye surgeon in Electronics City, Bengaluru, bringing extensive clinical and surgical experience in corneal disorders, advanced cataract microsurgery, and external ocular diseases. Dr. Lakshmi Sujatha Maturi is currently practising as a Consultant – Ophthalmology at Manipal Hospital Electronics City, Bengaluru, where she provides comprehensive, evidence-based vision and surgical eye care. With a surgical record that includes over 2,000 Small Incision Cataract Surgeries (SICS), corneal transplantations, and anterior segment interventions, Dr. Lakshmi Sujatha is regarded as one of the best ophthalmologists and eye surgeons in Electronics City, Bangalore. Dr. Lakshmi Sujatha completed her undergraduate medical education (MBBS) from Siddhartha Medical College, Vijayawada. She completed her post-graduate residency training in ophthalmology at BW Lions Superspeciality Eye Hospital, Bangalore, earning the Diplomate of National Board (DNB) in Ophthalmology. Driven by a dedication to complex anterior segment pathologies, she completed a specialised Fellowship in Cornea and External Eye Diseases at the prestigious

Minto Regional Institute of Ophthalmology (RIO), Bengaluru. In recognition of her academic and clinical distinction during training, she was honoured with the Allergan Academic Achievers Award – Erudio. At Manipal Hospital Electronics City, Dr. Lakshmi Sujatha provides comprehensive outpatient diagnostic evaluations and advanced surgical interventions. As a top cornea and cataract specialist in Electronics City, Bangalore, her surgical repertoire features high-volume manual Small Incision Cataract Surgery (SICS) and phacoemulsification, corneal transplantation (including optical penetrating keratoplasty and deep anterior lamellar keratoplasty - DALK), Corneal Collagen Cross-Linking with Riboflavin (C3R) for keratoconus, refractive procedures, and pterygium excision with conjunctival autografting. Her anterior segment practice also includes limbal and amniotic membrane transplantations, ocular trauma management, evisceration, and enucleation procedures. Dr. Lakshmi Sujatha Maturi is proficient in routine and advanced ophthalmic diagnostic technologies, including slit-lamp biomicroscopy, direct and indirect ophthalmoscopy, applanation tonometry, gonioscopy, Humphrey automated visual field testing, Optical Coherence Tomography (OCT), B-scan ultrasonography, ultrasonic pachymetry, Orbscan, and Pentacam corneal topography. Her clinical practice covers the medical management of severe dry eye syndrome, ocular surface disorders, complex corneal ulcers, glaucoma, uveitis, neuro-ophthalmology, optic nerve disorders, and retinal conditions including diabetic retinopathy and age-related macular degeneration. In addition to hospital-based care, she has individually managed satellite surgical facilities in Holenarsipura and Kollegal and has actively driven community outreach initiatives through numerous cataract and school eye screening camps. Fluent in Telugu, Hindi, English, and Kannada, Dr. Lakshmi Sujatha combines surgical dexterity with clear, empathetic patient counselling, ensuring accurate diagnoses, transparent clinical decision-making, and compassionate eye care for every patient.
