

DR. KAUSHIK BISWAS

Senior Consultant - Diabetes & Endocrinology

Qualification

MBBS | MD-MED | DM-ENDOCR

Overview

Dr. Kaushik Biswas is an experienced Senior Consultant in the Department of Diabetes & Endocrinology at Manipal Hospitals, E.M. Bypass, Kolkata, with an illustrious medical career spanning over 17 years. Holding an MBBS (2006), MD in Medicine (2011), and DM in Endocrinology (2015), Dr. Biswas is a distinguished expert in the field of Diabetology, Metabolism, and Endocrine Disorders, dedicated to providing evidence-based, patient-centric care. His extensive expertise covers a broad spectrum of endocrine conditions, including diabetes management, thyroid disorders, adrenal dysfunctions, pituitary diseases, and metabolic bone health. Dr. Biswas specializes in diagnosing and treating growth and puberty-related hormonal imbalances, hyperandrogenism in females, infertility linked to endocrine dysfunctions, and autoimmune-related hormonal disorders. His patient-first approach ensures comprehensive, cutting-edge treatment plans tailored to individual health needs. Committed to advancing endocrine healthcare, Dr. Biswas integrates the latest research and medical advancements into his clinical practice, making him a sought-after specialist in hormonal health and metabolic

disorders. If you're looking for expert care in diabetes management, thyroid health, fertility issues, or endocrine-related autoimmune conditions, Dr. Kaushik Biswas at Manipal Hospitals, Kolkata, is a trusted name in delivering holistic and evidence-based endocrine care.
