DR. SOUMYA KANTI BAG

Consultant - Plastic & Reconstructive Surgery

Qualification

MBBS | M.S (General Surgery) | M.Ch (Plastic & Reconstructive Surgery)

Overview

Dr. Soumya Kanti Bag is a skilled Consultant in the Department of Plastic & Reconstructive Surgery at Manipal Hospitals, E.M. Bypass, Kolkata. With a distinguished academic journey culminating in an MBBS (2009), MS in General Surgery (2015), and M.Ch in Plastic & Reconstructive Surgery (2018), he has honed his expertise in advanced surgical procedures and patient care. Dr. Bag previously served as a Consultant at Medica Superspecialty Hospital, Kolkata, further enriching his experience in the field. He is an active member of the Association of Plastic Surgeons of India (APSI), Association of Plastic Surgeons of West Bengal (APSWB), and the Association of Surgeons of India (ASI). His dedication to innovation and excellence has earned him accolades, including the Best Paper Award at the APSWB conference in 2017. Currently, he contributes to the growth of his specialty as an Executive Committee Member of APSWB. Dr. Bag's contributions to medical literature underscore his commitment to advancing surgical knowledge. His notable publications include "Tailoring of ALT Flap for Optimizing Donor Site Morbidity" (Indian J Plastic Surgery, 2024), "A Study on Fascial Flaps as a Viable Alternative to Conventional Flaps in Difficult Wounds" (IJAR, 2018), "Glomus Tumour - An Experience of 15 Cases" (JIMA, 2024, on press), and "Functional Outcome After Tendo

Achilles Repair – Our Experience in a Tertiary Healthcare System in Eastern India" (IJAR, 2022).
