

## **DR. SOURABH DUTTA**

Consultant - Internal Medicine

### **Qualification**

MBBS | MD (Internal Medicine) | Indian Diploma in Critical Care Medicine | European Diploma in Critical Care Medicine

### **Overview**

Dr. Sourabh Dutta is a dedicated and academically accomplished medical professional with a strong foundation as a Consultant in Internal Medicine and Critical Care. Throughout the course of his medical training and clinical practice, Dr. Dutta has exhibited consistent participation in research, academic presentations, and skill-enhancing workshops, reflecting his commitment towards evidence-based practice and continuous learning. He had been actively involved in national and international conferences, including a paper presentation at IRACON in March 2012. There, he presented his study on "Assessment of Bone Mineral Density by Quantitative Ultrasound Technique and Measurement of Prevalence of Osteopenia/Osteoporosis in E-beta Thalassemia Patients." In addition, Dr. Dutta's research portfolio also includes a poster presentation at MYCOCON'14. In this international conference on fungal diseases, he introduced his groundwork on "Unusual Isolation of Candida Hemoluni Isolates from Bloodstream Infection Patients -A Retrospective Study." To enhance his clinical knowledge base, Dr. Dutta has completed several certified courses and workshops. These include the BLS & ACLS Provider Course

(ACCIAHA), ATLS Provider Course (ACS), Percutaneous Tracheostomy Workshop, AIIMS Emergency Sonography Provider Course, and specialised workshops in Basic & Advanced Mechanical Ventilation and Sleep Medicine were conducted in collaboration with AIIMS and ACCP. Apart from these, Dr. Dutta has submitted several theses to the National Board, focusing on significant areas of internal medicine and cardiology. Dr. Sourabh Dutta continues to work towards the advancement of patient care, excellence in academic research, and high professional standards to make a significant contribution to the future of medical science and healthcare.
