

## **PROF. (DR.) RAJIB DE**

Senior Consultant & Clinical Lead - Clinical Haematology, Haemato-Oncology & Bone Marrow Transplant (BMT)

### **Qualification**

MBBS | MD | DM (Clinical Haematology) | Specialist Residency in BMT (Tata Memorial Hospital, Mumbai) | Training in CAR-T Cell Therapy (Tata Memorial Hospital, Mumbai)

### **Overview**

Dr. Rajib De is an esteemed Senior Consultant & Clinical Lead - Clinical Haematology, Haemato-Oncology & Bone Marrow Transplant (BMT), Manipal Hospital, EM Bypass. With a distinguished academic background of MBBS from Medical College, Kolkata, MD (Pathology) from IPGMER-SSKM Hospital and DM (Clinical Haematology) from Institute of Haematology & Transfusion Medicine(IHTM)- Medical College Kolkata, followed by Specialist Residency in Bone Marrow Transplantation (2012) and Observership in CAR-T Cell Therapy (2025), both from Tata Memorial Hospital, Mumbai, Dr. Rajib De's medical journey is honed by academic and clinical excellence. In his career of over 15 years, Dr. Rajib De has garnered extensive, hands-on experience from his dedicated service across notable healthcare establishments in India. He was the first to perform autologous stem cell transplantation in a case of Multiple Myeloma in Medical College Calcutta in August 2009, and also the first to perform allogenic stem cell transplant for acute leukemia under Government of West Bengal in

the Department of Haematology, NRS Medical College in October 2012. He established the BMT unit at Narayana Superspeciality Hospital, Howrah and performed 84 bone marrow transplants there. Altogether he has performed more than 200 BMTs including Autologous, Allogenic and Haploidentical transplants for all possible indications like Myeloma, Lymphoma, Leukemia, Thalassaemia, Aplastic Anaemia and others. He is also a clinical scientist and is the Nodal officer of Multidisciplinary Research Unit(MRU) at NRS Medical college under Department of Health Research(DHR), Govt of India. His areas of research interest are Thalassaemia, Acute lymphoblastic leukemia, Bone marrow transplants and CAR-T cell therapy. He has many research projects under funding agencies like DST and ICMR. He is also associated with many multicentric and multinational clinical trials. As a passionate researcher he has contributed immensely towards haematology and bone marrow transplant through numerous complete and on-going research studies. He is also a teacher of DM(Clinical Haematology) students as a Professor in the Department of Haematology at NRS medical college. A pioneer in the field of haemato-oncology and BMT, Dr. Rajib De remains devoted towards training professionals of the future while offering a compassionate, comprehensive treatment approach to patients. He joined as a Clinical Lead in the Department of Clinical Haematology, Haemato-oncology & BMT of Manipal Hospital, EM Bypass with a team consisting of both adult and paediatric haemato-oncology consultants, trained doctors and nursing team.

### **Fellowship & Membership**

- Fellow of Indian College of Haematology
- Nodal officer: EIBMCT (Eastern India Blood Marrow & Cellular Therapy) EHG
- Executive Committee member of ISHBT(Indian Society of Haematology & Blood Transfusion)
- Assistant Secretary of Bengal Society of Haematology

## Field of Expertise

- Anaemia
- Aplastic Anaemia & Bone Marrow Failure
- Thalassaemia & Sickle Cell Disease
- Blood Cancers (Leukemia, Lymphoma, Multiple Myeloma, MDS, MPN)
- ITP & Bleeding Disorders
- Thrombotic Disorders
- Bone Marrow Transplant
- CAR-T Cell Therapy
- Training on Bone Marrow Transplantation from All India Institute of Medical sciences (AIIMS), New Delhi from 15/02/10 to 14/04/10
- Training on Bone Marrow transplantation from Tata Memorial Hospital, Mumbai as Specialist Resident in Bone Marrow Transplant Unit, Tata Memorial Hospital, Mumbai from August 2011 - August 2012 (Performed 65 bone marrow transplant including autologous, allogenic and matched unrelated donor (MUD) transplant).
- First to do autologous stem cell transplantation in a case of Multiple Myeloma in Medical College Calcutta in August 2009.
- First to do allogenic stem cell transplant for acute leukemia under Government of West Bengal in the Department of Haematology, NRS Medical College in October 2012.
- Involved in more than 200 bone marrow transplants in patients of Aplastic anemia, Leukemia, Lymphoma, Multiple myeloma and Thalassaemia.
- Established Bone Marrow Transplant unit at Narayana Superspeciality Hospital and started BMT activities in 2017.
- Worked as a Clinical Lead- BMT Programme at Narayana Superspeciality Hospital, Howrah. Performed 84 BMTs till date

- at Narayana Superspeciality Hospital including Autologous, Allogenic (Matched Related) and Haploidentical transplants.
- Trained in CAR-T cell Therapy from TMH, Mumbai

### Languages Spoken

- English
- Hindi
- Bengali

### Awards & Achievements

- Author of chapters in different Haematological books like- Haematology Today, Management of Acute Leukemia, Myeloproliferative Neoplasms, National guideline on Thalassaemia.
- Sufi, Omar & Chaudhuri, Rupak & De, Rajib & Dasgupta, Anjan. (2012). Ferritin biosensor and methods of using the same. March 2012 (Patent: US 20120052014 A1)
- Optimization of Available Infrastructure and Resources for the Management of Childhood Acute Lymphoblastic Leukaemia Treated with FISH & Minimal Residual Disease based Dynamic Risk Stratified ICiCLe Protocol PI ICMR Ongoing
- Accessing Childhood Cancer Services in INDIA PI Cankids Completed.
- Study of tyrosine kinase inhibitors on platelet function - refining management of hematological malignancies by predicting hemostatic complications PI WB-DST Ongoing.
- RBC Phosphatidylserine exposure of Hb-E-Beta Thalassaemia patients on HbF inducers .PI Intramural (NRSMCH) Ongoing
