

DR. NEERAJ AGARWAL

Consultant - Neurology

Qualification

MBBS | MD (Internal Medicine) | DM (Neurology)

Overview

Dr Neeraj Agarwal is a highly qualified and experienced neurologist in Ghaziabad, with a strong academic foundation and a commitment to advancing patient care. He holds an MD in Internal Medicine and a DM in Neurology from SMS Medical College, Jaipur (2008), reflecting his advanced expertise in diagnosing and managing complex neurological conditions. With over a decade of clinical and academic experience, Dr Agarwal has developed a reputation for delivering evidence-based, patient-centric care. He is registered with both the Maharashtra Medical Council and the Delhi Medical Council, underscoring his adherence to professional and ethical medical standards. His early academic journey was marked by excellence, including distinction in Anatomy during his MBBS from Pune University and strong performance in his pre-medical education under CBSE. Dr Agarwal has actively contributed to the field of neurology through research and academic writing. He has authored and co-authored multiple publications on critical topics such as stroke in pregnancy, acute ischemic stroke management, Aicardi syndrome, Wilson’s disease, and dementia. His work has been featured in reputed journals, including

the Rajasthan Medical Journal and the Annals of the Indian Academy of Neurology, demonstrating his commitment to advancing neurological knowledge and practice. In addition to his research contributions, Dr Agarwal has participated in significant clinical projects, including a randomised double-blind placebo-controlled study on the efficacy of Brivaracetam in partial epilepsy and research on peripheral stem cell transplantation in multiple sclerosis. These projects highlight his engagement with innovative treatment approaches and clinical advancements. Dr Agarwal has also been involved in organising and attending key national and international conferences and workshops, including the Indian National Neurology Conference and symposiums on nerve and muscle diseases. His continuous engagement with the medical community ensures that he remains updated with the latest developments in neurology. Known for his clinical acumen, academic rigour, and compassionate approach, Dr Neeraj Agarwal is dedicated to improving patient outcomes and contributing meaningfully to the field of neurology.
