

DR. TALIB MANZOOR KHAN

Consultant - Nephrology

Qualification

MD | DrNB (Nephrology)

Overview

Dr. Talib Manzoor Khan is a highly accomplished and deeply dedicated Consultant Nephrologist in Ghaziabad. His clinical practice is defined by academic excellence, precise diagnostic reasoning, and a compassionate, holistic approach to patient care. Registered with the Delhi Medical Council, his medical journey began with an MBBS from the prestigious Government Medical College in Srinagar, followed by a rigorous clinical internship at the same institution. Driven by a passion for complex diagnostics and internal medicine, he completed a demanding MD in Internal Medicine at the renowned Sher-i-Kashmir Institute of Medical Sciences. Recognising his profound calling in the specialised management of renal disorders, Dr. Khan further advanced his training by successfully completing a highly competitive DrNB in Nephrology at the prestigious Pushpawati Singhania Research Institute in Saket, New Delhi. This extensive superspecialty training has equipped him with advanced expertise in managing a wide spectrum of acute and chronic kidney diseases, renal replacement therapies, and post-transplant care. Throughout his distinguished career, Dr. Khan has held pivotal clinical, academic, and leadership roles across several

premier high-volume healthcare institutions. He garnered extensive, invaluable clinical exposure during his residencies in Internal Medicine and Nephrology at major tertiary care institutes, and subsequently contributed his medical expertise as a Senior Resident and Registrar at university-affiliated medical colleges. Beyond academic hospitals, he has served as a Consultant in Internal Medicine and General Medicine at prominent corporate healthcare facilities and multi-speciality clinics across Delhi and Haryana. Dr. Khan’s core clinical strengths lie in his ability to deliver patient-centred, evidence-based care for complex nephrological conditions, including diabetic nephropathy, glomerulonephritis, acute kidney injury, and end-stage renal disease requiring hemodialysis or peritoneal dialysis. He is particularly focused on utilising advanced preventive strategies to retard the progression of renal diseases and improve the overall quality of life for his patients. Guided by a personal philosophy of striving for perfection, Dr. Khan actively engages in community outreach and clinical volunteer work, seamlessly combining his profound medical knowledge with an empathetic and ethical approach. He prioritises open, clear communication with patients and their families, ensuring they are fully supported and empowered to make informed, confident decisions throughout their therapeutic journeys.
