

## **DR. SUJOY FERNANDES**

Associate Consultant - Radiation Oncology

### **Qualification**

MBBS | MD(Radiation Oncology)

### **Overview**

Dr. Sujoy Fernandes is a dedicated and skilled oncologist, currently working as a Consultant in Radiation Oncology and Palliative Care at Manipal Hospitals, Goa. Dr. Fernandes completed his MBBS from Goa Medical College, followed by an MD in Radiation Oncology from AIIMS, Jodhpur. He is the foremost Radiation Oncologist in Goa. With extensive expertise in advanced radiation treatments, he specialises in external beam radiotherapy using Linear Accelerator Image-guided (IGRT) and Intensity-modulated radiation therapy (IMRT) and VMAT technique. Dr Fernandes also has proficiency in radiosurgery techniques such as Stereotactic Radiosurgery (SRS), Stereotactic Body Radiotherapy (SBRT), and Stereotactic Body Radiation Therapy (SBRT). He has a special interest in brachytherapy, extracorporeal radiotherapy, palliative radiation, and haemostatic radiotherapy for bleeding tumours. Dr. Fernandes has done extensive research in adaptive radiotherapy for head and neck cancers. He has also contributed to studies on HPV and microRNA in head and neck cancers. His experience includes treating oesophageal cancers with high response rates and managing both functional and non-functional

pituitary tumours using SRS. He is also experienced in palliative care and pain management. His key areas of interest are head and neck malignancies (oropharyngeal, laryngeal, hypopharyngeal, and nasopharyngeal tumours) and gynaecological cancers (cervical and endometrial cancers). Dr Fernandes has also treated paediatric malignancies such as Wilms tumour, neuroblastoma, and rhabdomyosarcoma. His research in translational oncology focuses on microRNAs, and he has significant experience with modern radiation techniques like IMRT, IGRT, and VMAT. Dr. Fernandes is a member of the Association of Radiation Oncologists of India (AROI). He speaks English, Konkani, Hindi, and Marwari. Previously, he worked as a Senior Resident in the Department of Radiation Oncology at AIIMS, Jodhpur. Dr. Sujoy Fernandes is dedicated to providing compassionate care, combining his expertise in cutting-edge radiation therapies with a patient-centred approach. His commitment to research and innovation in oncology ensures the best possible outcomes for his patients, making him a highly regarded expert in his field.

### **Field of Expertise**

- Head and neck malignancies
- Gynaecologic malignancies
- Gastrointestinal malignancies
- Urogenital malignancies
- CNS tumours
- Oligometastatic disease

### **Languages Spoken**

- English
- Konkani
- Hindi

- Marwari

### **Talks & Publications**

- Talk at Rotary club, topic- What is Radio therapy? What are the myths surrounding radio therapy treatment?
