Overview

Dr Jyoti Sharma is a distinguished Senior Consultant in Obstetrics and Gynaecology in Gurugram, where she brings extensive clinical expertise and a patient-centred approach to women's healthcare. With a solid educational foundation and years of dedicated service, she has established herself as a trusted practitioner in her field, known for combining compassionate care with evidence-based medical practice. Dr Sharma holds an MBBS degree, along with an MS in Obstetrics and Gynaecology and DGO (Diploma in Obstetrics and Gynaecology), reflecting extensive professional training in maternal and reproductive health. She is proficient in both Hindi and English, ensuring effective communication with patients from diverse backgrounds. Throughout her career, Dr Sharma has managed a wide spectrum of women's health needs, from routine antenatal care and normal deliveries to complex high-risk pregnancies and advanced gynaecological conditions. Her approach emphasises personalised treatment plans, meticulous monitoring, and preventive care, helping women make informed decisions about their reproductive health. Dr Sharma's clinical skills extend to both surgical and non-surgical procedures in

gynaecology. She is well-versed in childbirth management, including normal delivery and caesarean sections and educated patients about key aspects of childbirth choices and recovery. She also explains specialised procedures like cryocautery for treating abnormal cervical cells, showcasing her commitment to women's cancer prevention and minimally invasive care. In addition to her clinical practice, Dr Sharma actively contributes to women's health education through talks and media features on topics ranging from common gynaecological diseases to pregnancy wellness. Her expert insights have been highlighted in health platforms discussing women's mental and physical health, emphasising the holistic nature of her practice. Patients appreciate Dr Sharma for her empathetic listening, clinical precision, and supportive guidance throughout the continuum of care, whether during pregnancy, reproductive health concerns, or routine women's health management. Her compassionate yet thorough methodology makes her a respected and dependable choice for women seeking quality obstetric and gynaecological care.
