

DR. SANJAY KAPOOR

Consultant - Robotic Joint Replacement & Orthopaedic Surgery

Qualification

MBBS | D-Ortho | MS Ortho | MCH Ortho (American Institute of Medicine)

Overview

Dr. Sanjay Kapoor is a highly experienced orthopaedic surgeon specialising in robotic joint replacement surgery. With over two decades of expertise, he has performed various successful knee and hip replacement procedures. He also specialises in handling complex trauma cases with minimal invasion and Arthroscopic management of ligament injuries. He shares a keen interest in regenerative medicine for the management of mild to moderate arthritis cases. He is among the leading surgeons in adopting robotic technology in joint replacement, ensuring precision, faster recovery, and improved patient outcomes. Dr. Kapoor is dedicated to bringing advanced orthopaedic solutions to his patients with compassionate care and cutting-edge technology.
