

DR. SANDEEP HARKAR

Principal Consultant - Urologist

Qualification

MBBS | MS | DNB

Overview

Dr. Sandeep Harkar is a renowned Urology and Renal Transplant specialist with over 18 years of experience, currently the Principal Consultant in the Department of Urology at Manipal Hospitals, Gurugram. He is widely recognised for his expertise in managing complex urological conditions using advanced techniques, including Endoscopic, Laparoscopic, Robotic, and Open surgeries. Dr. Harkar's journey in medicine began at Government Medical College, Jammu, where he completed his MBBS in 2001, followed by an MS in General Surgery. His passion for urology led him to pursue specialised training at the prestigious Army Hospital (R&R), New Delhi, where he completed his DNB in Urology. He was an integral part of the renal transplant team at Army Hospital and later at Paras Hospitals, Gurgaon and Artemis Health Institute. With a sharp clinical acumen and a compassionate approach, Dr. Harkar excels in both routine and complex urological procedures, such as kidney transplantations, nephrectomies, and laparoscopic surgeries. He is known for his skilled use of state-of-the-art equipment, including ESWL, RIRS, da Vinci Robotic Surgery, and advanced laser technologies. Dr. Harkar's

academic contributions include numerous publications in leading international journals and presentations at top medical conferences across India and Europe. His international fellowship in Urology and exposure to the European Urology Residents Educational Programme (EUREP) in 2011 reflect his commitment to global medical practices. He is a respected member of the Urological Society of India (USI) and holds registrations with the Delhi Medical Council and Haryana Medical Council. Fluent in English, Hindi, Urdu, and Kashmiri, Dr. Harkar's dedication to patient care and his profound expertise make him one of the leading urologists in Gurugram. Dr. Sandeep Harkar continues to make a significant impact in the field of urology and renal transplant, offering expert care to patients at Manipal Hospitals, Gurugram.
