

DR. SHAFALIKA SB

Consultant - Minimally Invasive Gynaecology

Qualification

MBBS | DGO | DNB | FMIS

Overview

Dr. Shafalika SB is a Minimally Invasive Gynecology Consultant with extensive training and expertise. With many capabilities, cooperations, and affiliations, she has set up a good foundation for herself in her field as a well-informed authority. Dr Shafalika SB can speak with patients from a scope of social foundations because of her capability in several dialects, including Kannada, English, Hindi, Tamil, and Telugu. With her MBBS from Bangalore Medical College and Research Institute in 1998, Dr. Shafalika SB began her medical career. A DGO (Certificate in Obstetrics and Gynecology) from the Vijayanagara Foundation of Clinical Sciences in 2002 and a DNB (Diplomate of Public Board) in Obstetrics and Gynecology in 2006 were the subsequent stages in her schooling. She is a specialist in negligibly obtrusive gynaecology and has cooperation in the field. She is regarded to be an individual from a few renowned associations, including the BSOG (Bangalore Society of Obstetrics and Gynecology), FOGSI (Organization of Obstetric and Gynecological Social Orders of India), AAGL (American Relationship of Gynecologic Laparoscopists), and IAGE (Indian Relationship of Gynecological Endoscopists). No wonder she is considered the best

gynaecologist in Hebbal, Bangalore. Dr. Shafalika SB has won various honours and awards during her career for her remarkable contributions to the industry. She has been recognised as a rank holder in the SSLC Exam and a university topper in the Postgraduate Exam. Her paper presentations and speeches at various conferences and workshops earned her accolades, including the Best Paper Presentation at the BSOG CME in 2002 and the Best Speaker Award at the Safe Motherhood Workshop in Bellary in 2002. She has also won prizes for her papers on endometriosis and challenges in laparoscopic hysterectomies. Dr. Shafalika SB has demonstrated her commitment to improving medical knowledge through her participation in presentations and publications. She has presented articles on a range of gynaecology-related subjects, such as the safety of surgical laparoscopy in pregnancy, uncommon presentations of endometriosis, and pregnancy outcomes in post-sleeve gastrectomy patients. She has also given countless presentations to spread awareness of women's health concerns and written a chapter on cardiac complications following laparoscopy. Dr. Shafalika SB provides a variety of Minimally Invasive Gynecology treatments as a consultant. She has experience conducting a wide range of specialised medical procedures, including laparoscopic hysterectomy, laparoscopy for endometriosis, hysteroscopic polypectomy, and laparoscopic fibroid evacuation. She possesses remarkable and esteemed skills as a gynaecologist and laparoscopic expert. Dr. Shafalika SB significantly affects the existence of endless patients through her over twenty years in the clinical business. The two patients and partners appreciate and respect her for her commitment to giving excellent treatment and to the field of insignificantly obtrusive gynaecology.
