## Overview

Dr. Amarnath KA is the best internal medicine specialist in Bengaluru. Presently he is employed at Manipal Hospitals, Hebbal, Bengaluru as a consultant for internal medicine. He has an experience of 19 years of extending his services via many other hospitals in Karnataka other than Manipal Hospital. He completed his MBBS at Bangalore Medical College and Research Institute in 2004 and then did his Master's in General Medicine from Chennai. He has been practising general medicine & diabetology for years and has earned the respect of his patients, who hold high respect for him. Patients with critical ailments, in some cases both spouses, have been getting treated by him for 5 years and have held high regard for his professionalism and dedication. In the short span of his practice, he has earned a lot of appreciation concerning how he treats his patients. His strength is his patience level, where he takes his own sweet time to listen carefully to every patient, whether older or younger and then provides his consultation. Moreover, his sense of integrity is beyond doubt and has been a plus point in his career. No wonder he is considered one of the best internists in Hebbal, Bangalore. Dr Amarnath's experience in internal

medicine and his reach to almost every nook and corner of Karnataka, aided by his valuable contribution to the field of medicine, has made him a doctor of the masses. He holds the membership of IMA, and his colleagues highly regard him. He is an inspiration for all the new doctors who come and work in those hospitals where he has given his services. Moreover, he is an avid thinker, always thinking about how he can increase his skills of making his patients happy and saying he is a doctor who treats with a smile. He is well-versed in languages like Tamil, Telugu, and Kannada. This makes him different from other professionals as he can converse, feel and treat people from various backgrounds. A doctor can only reach people's hearts when they understand each other regarding their medical ailment and mental agony. That is the principle that Dr. Amarnath follows.
