Overview

Dr. G. Moinoddin is a highly respected bariatric and metabolic surgeon in Hebbal. He is currently practising as the Director – Bariatric & Metabolic Surgery (South India Region) at Manipal Hospital Hebbal, Bangalore, bringing extensive experience in advanced laparoscopic, bariatric, and metabolic surgery. Widely recognised for his leadership in weight-loss surgery and minimally invasive gastrointestinal procedures, Dr. Moinoddin is known for delivering structured, outcome-driven care to patients struggling with obesity and obesity-related medical conditions. He holds an MBBS and MS in General Surgery, complemented by multiple advanced fellowships in minimal access surgery, bariatric surgery, robotic and laparoscopic colorectal surgery, and advanced laparoscopy, along with hands-on training in diagnostic upper GI endoscopy. His international fellowships from reputed global centres have strengthened his expertise in complex bariatric

reconstructions, revisional procedures, and high-risk surgical cases. This robust academic foundation has enabled him to manage both routine and highly complex metabolic surgical interventions with consistency and safety. Dr. Moinoddin has performed over 5,000 basic and advanced laparoscopic procedures and more than 1,000 bariatric and metabolic surgeries, including operations on super-obese individuals weighing over 200 kg. His clinical focus extends beyond weight reduction to the metabolic correction of conditions such as type 2 diabetes, sleep apnoea, hypertension, dyslipidaemia, polycystic ovarian syndrome, and obesity-associated hormonal disorders. Through carefully planned surgical strategies, he helps patients achieve not only sustained weight loss but also long-term improvement in metabolic health and overall quality of life. His surgical expertise includes a comprehensive range of primary, revisional, and reversal bariatric procedures, such as single-incision sleeve gastrectomy, mini gastric bypass, Roux-en-Y gastric bypass, SADI-S, SASI bypass, duodenal-jejunal bypass, proximal jejunal bypass, and complex conversion surgeries. He is also highly experienced in revisional bariatric surgery, addressing failed or complicated previous procedures with tailored reconstructive solutions. In addition, he performs a wide spectrum of advanced laparoscopic gastrointestinal, colorectal, hepatopancreaticobiliary, thoracic, and hernia surgeries, making him a trusted referral surgeon for complex minimally invasive procedures. A notable milestone in Dr. Moinoddin's career is his role as the first surgeon to introduce and successfully establish the single-incision sleeve gastrectomy programme in Karnataka, significantly advancing minimally invasive bariatric care in the region. He has received multiple professional honours, including the Times Excellence Award for Bariatric Surgery for Karnataka in consecutive years, recognising his contribution to surgical outcomes and patient care standards. Dr. Moinoddin is deeply involved in academic surgery and public health advocacy. He is a co-author of the Karl Storz Silver Book of Sleeve Gastrectomy and has actively participated as a faculty member,

speaker, and session chair at numerous national and international bariatric and laparoscopic conferences. His commitment to public awareness is reflected in his regular engagement with the media, support group programmes, and educational campaigns focused on the long-term health risks of obesity and the evolving role of metabolic surgery in diabetes management. At Manipal Hospital Hebbal, Dr. Moinoddin is valued not only for his surgical precision but also for his holistic, patient-centred approach. He believes that successful bariatric care extends beyond the operating room to include preoperative counselling, nutritional planning, psychological support, and long-term follow-up. Patients seeking the best bariatric surgeon in Hebbal often appreciate his structured treatment pathways, transparent discussions, and dedication to sustainable health transformation rather than short-term weight loss alone. With his extensive procedural experience, leadership in bariatric programme development, and commitment to continuous innovation, Dr. G. Moinoddin continues to play a pivotal role in strengthening advanced bariatric and metabolic surgery services at Manipal Hospital Hebbal.

Fellowship & Membership

- OSSI (Obesity Surgical Society of India).
- Active Member of young IFSO (International Federation of Surgical Obesity).

Field of Expertise

- Single Incision sleeve gastrectomy
- Laparoscopic mini gastric by-pass
- Laparoscopic Roux-N-Y Gastric by-pass
- Revisional Bariatric Surgeries
- Sleeve to mini-gastric bypass

- Sleeve to Roux-N-Y gastric bypass
- Resleeve
- Banded sleeve to Roux-N-Y gastric bypass
- Sleeve to SADI single anastomosis duodenal ileal bypass
- SASI bypass
- Sleeve with duodenal-jejunal bypass (DJB)
- Sleeve with Proximal Jejunal bypass (PJB)
- Reversal Bariatric Surgeries
- Roux-N-Y gastric bypass to Normal stomach
- Mini gastric bypass to Normal stomach
- Basic Laparoscopic Surgeries
- Laparoscopic Cholecystectomy
- Laparoscopic Appendicectomy
- Laparoscopic Ventral Hernia Repairs
- Advanced Laparoscopic Surgeries
- Laparoscopic inguinal hernia surgeries (TAPP, TEP)
- Laparoscopic complex ventral hernia repairs
- Laparoscopic adrenalectomy
- Laparoscopic Nephrectomy
- Laparoscopic Colon resections and reconstructions
- Laparoscopic Rectal surgeries (AR, APR)
- Laparoscopic pancreatic surgeries (Whipples procedure, distal pancreatectomy)
- Laparoscopic Heller Myotomy for Achalasia cardia esophagus
- Laparoscopic esophageal resection for CA esophagus
- Video assisted thoracoscopic surgeries like lung decortication
Thymectomy
- Gastroesophageal reflex surgeries like Laparoscopic fundoplication
- Laparoscopic advanced gynecological surgeries
- Laparoscopic hepatopancreatic biliary surgeries
- Laparoscopic splenectomy
