

DR. ANUSHAM A ANANTHRAM

Consultant - Plastic Surgeon

Qualification

M.B.B.S | D.N.B (Gen Surg) | MCh (Plastic Surgery)

Overview

Dr Anusham A Ananthram is a talented plastic surgeon. He is experienced in several areas of cosmetic and reconstructive surgery. He aims to provide high-quality care to patients—especially those who need congenital deformity corrections and reconstructive surgeries. Dr Ananthram has built a solid foundation for his work. He has an excellent educational background. He also has fluency in many languages. He has received prestigious degrees such as M.B.B.S, D.N.B (General Surgery), and MCh (Plastic Surgery). These gave him the broad knowledge and expertise required to flourish in plastic surgery. Dr Ananthram's expertise extends to correcting congenital deformities, encompassing a broad spectrum of abnormalities present at birth. Various types of congenital disabilities affect different parts of the body, including cleft lip and palate, craniofacial anomalies, and limb deformities. His objective is to improve his patients' appearances and everyday lives. He wants to help by enabling them to lead more gratifying lives. Additionally, Dr Ananthram's skill in hand surgery is noteworthy. He demonstrates remarkable skill in treating various hand and wrist conditions. These include injuries, fractures, and nerve

damage. Through his comprehensive knowledge and surgical skills, Dr Ananthram can restore functionality. He strives to improve the lives of individuals grappling with hand-related issues. Dr Ananthram, as a plastic surgeon, offers a wide range of cosmetic operations to help patients reach their aesthetic goals. Some include breast augmentation, liposuction, facelifts, rhinoplasty (nose reshaping), and abdominoplasty (tummy tuck). He guarantees that each surgery has a natural and harmonious conclusion. He combines his surgical expertise with an aesthetic sense. No wonder he is considered the best plastic surgeon in Hebbal, Bangalore. Dr Ananthram also specialises in reconstructive surgery. It deals with restoring the body's structure and function caused by trauma, cancer, or other disorders. Breast reconstruction after mastectomy, scar repair, skin grafts, and tissue flap surgeries are some. His skills and knowledge in reconstructive surgery allow him to help patients restore their confidence. That, in turn, helps them improve their well-being. Dr Anusham A Ananthram's ability to communicate effectively with his patients is further amplified by his fluency in many languages. He is well-versed in English, Hindi, Kannada, and Tamil, allowing him to understand and cater to the needs of patients from diverse cultural backgrounds. Dr Anusham A Ananthram's constant commitment and expertise as a plastic surgeon make him an essential asset to the field. His expertise in congenital disabilities, hand surgery, cosmetic procedures, and reconstructive surgeries shows his broad range of abilities. He strives to deliver superior care to his patients. He helps them in regaining their confidence.
