

DR. VISHAL NAIK

Consultant – Urology and Minimal Access Surgery

Qualification

MBBS | DNB (General Surgery) | MCh (Genitourinary Surgery) | FMAS (Fellow minimal access surgery) | FAIS | FIAGES | EFIAGES

Overview

Dr. Vishal Naik is a highly experienced Consultant Urologist with over 14 years of surgical expertise, specialising in the comprehensive management of urological conditions. His areas of specialisation include stone surgery, endourology, prostate surgery, urological cancers, reconstructive urology, paediatric urology, female and functional urology, male infertility, and laparoscopic procedures. He is available at Manipal Hospitals, Hebbal, Bangalore, and Manipal Hospitals, Doddaballapur. Known for his precision, clinical acumen, and patient-centred care, Dr. Naik integrates the latest techniques in minimally invasive and reconstructive urology to provide effective and tailored treatment solutions. His dedication to excellence and innovation has earned him the trust of patients and peers alike. He has performed over 2300 urological procedures during his specialist training, encompassing endourology, robotic-assisted surgeries, paediatric and reconstructive urology, uro-oncology, and renal transplantation. His expertise spans from routine urological conditions to highly complex cases requiring advanced minimal access and endoscopic interventions. Dr. Vishal’s academic journey – He holds an

MCh. in Genitourinary Surgery after completing his DNB in General Surgery from the National Board of Education. In addition, he has earned multiple prestigious fellowships, including FMAS, FAIS, FIAGES, and EFIAGES, highlighting his proficiency in minimal access surgery. He has a strong academic presence and has presented many scientific papers at major national and zonal conferences, covering topics like adrenal tumours in pregnancy, rare urethral malignancies, complex reconstructive surgeries, and mesenteric ischemia. His clinical research includes published work on subjects such as mesh complications, post-sling surgeries, urethral leiomyomas, prostatic sarcomas and emphysematous pyelonephritis. Dr. Vishal's scientific curiosity and passion for improving surgical outcomes are reflected in his continuous contributions to urological literature and clinical audits. His professional affiliations span numerous surgical and urological societies, including the Association of Surgeons of India (ASI), Urological Society of India (USI), Bangalore Urological Society (BUS), Association of Southern Urologists (ASU), Indian Association of Gastrointestinal and Endo-Surgeons (IAGES), AWR Surgeons and IHPBA. He is also an active member of global urological forums, including the American Urological Association. This engagement keeps him updated with the latest evidence-based practices and technological advances in his field.

Fellowship & Membership

- Completed credentialing for award of FAIS degree by Association of Surgeons of India- Convocation in Dec 2018 at Chennai.
- FMAS (Fellowship in Minimal access surgery) by Association of Minimal access surgeons of India- Convocation in Nov 2018 at Lucknow.
- FIAGES (Fellow of Indian association of gastrointestinal and endosurgeons) – Convocation in Feb 2019 at Bhubaneswar.
- EFIAGES (Endoscopy Fellow of Indian association of

gastrointestinal and endosurgeons) Convocation in Guwahati in Feb 2020.

Field of Expertise

- Endo-urology.
- Stone Surgeries.
- Prostate Surgeries.
- Laser Surgeries.
- Urological Cancers/ UroOncology.
- Minimal Access Surgeries.
- Robotic Surgeries.
- Dialysis Access Surgeries.
- Pediatric Urology.
- Reconstructive Urology.
- Female Urology.
- Renal Tranplantation.

Languages Spoken

- English.
- Hindi.
- Kannada.
- Tamil.

Awards & Achievements

- Won a quiz conducted by St John’s Hospital, Bangalore, CSEP-Sister Nirmala Memorial Quiz twice – 1st prize in 2012 and 2nd prize in 2014.
- Gold medal in Prof. B.K.C. Mohan Prasad Quiz Programme for

PGs 2014 at TN&P ASI State Chapter, Chennai.
- Silver medal at the National Surgical Postgraduate Quiz held at Hyderabad in December 2014.

Talks & Publications

- Transurethral Excision of Eroded Trans-vesical Mesh after Sling Surgery – International Journal of Recent Advances in Multidisciplinary Research.
- Adrenal tumours complicating pregnancy – IJRAMR.
- Bulbar urethral carcinoma masquerading as urethral stricture disease – Int. Journal of Recent Advances and Research.
- Intravesical Migration of Intrauterine Contraceptive Device with Calculus Formation – IJFMR.
- An interesting presentation of Hypogonadotropic Hypogonadism- Kallman Syndrome.
- Urethra or uterus- Histopathological similarity in female urethral leiomyoma.
- FeCal stent – Forgotten, encrusted, calcified DJ stent-related complications in urology and management strategies.
- Emphysematous Pyelonephritis: Tertiary Care Centre Experience – The Journal of Medical Sciences.
- Laparoscopic Adrenalectomy and Adrenal Tumours in Pregnancy – National ASI Conference 2012, Kolkata, West Bengal.
- Central Segmental Pancreatectomy in Borderline Pancreatic Neoplasm – National ASI Conference 2013, Ahmedabad, Gujarat.
- Superior mesenteric artery thromboembolism and mesenteric ischaemia – National ASI Conference 2013, Ahmedabad, Gujarat.
- Traumatic Diaphragmatic Hernias – State Conference

TANASICON 2013, Trichy, Tamil Nadu.

- Intra-biliary rupture of relapsing hepatic hydatid with obstruction and cholangitis – State Conference TN & P ASICON 2014, Chennai, Tamil Nadu.
