

DR. MANJULA B V

Consultant - ENT and Head & Neck Surgery

Qualification

MBBS | DLO | DNB (ENT) | Fellowship in Head and Neck Surgical Oncology | Fellowship UICC (ICRETT)

Overview

Dr. Manjula B V is a highly skilled ENT and Head & Neck Surgeon in Hebbal. She is currently practising as a Senior Consultant - ENT, Head and Neck Surgery at Manipal Hospital Hebbal, Bangalore, bringing more than 20 years of extensive surgical and clinical expertise to the comprehensive care of patients with complex ear, nose, throat, skull base, and head and neck conditions. Dr. Manjula’s professional journey reflects exceptional depth, precision, and academic rigour in the field of otorhinolaryngology and head and neck surgical oncology. Her foundation was built through MBBS from Mysore Medical College, followed by DLO from Government Medical College, Bangalore, and DNB in ENT from Amrita Institute of Medical Sciences (AIMS), Kochi, equipping her with a strong command over both core ENT practice and advanced surgical principles. Her pursuit of excellence led her to complete a Fellowship in Head and Neck Surgical Oncology, where she gained advanced exposure to global standards of cancer care, reconstruction, and multidisciplinary decision-making. This extensive training has firmly established her reputation as one of the best ENT surgeons in Hebbal, particularly for complex oncological and skull base

cases. At Manipal Hospital Hebbal, Dr. Manjula manages the full spectrum of ENT, head and neck, and skull base disorders, with particular expertise in head and neck cancer resections and reconstructions, oral cancer surgery, thyroid and parathyroid surgery, and salivary gland disorders. She is highly proficient in both open and endoscopic skull base surgeries, including anterior skull base and pituitary surgeries for benign and malignant tumours, using advanced endoscopic and navigation-assisted techniques. Her surgical approach balances oncological clearance with functional preservation, ensuring optimal outcomes related to speech, swallowing, airway safety, and appearance. A defining strength of Dr. Manjula's practice is her expertise in laryngotracheal reconstruction, paediatric airway surgeries, recurrent laryngeal nerve reinnervation procedures, and phonomicrosurgeries. Patients with complex voice disorders, airway stenosis, and post-treatment functional deficits benefit from her meticulous technique and deep understanding of airway dynamics. Her proficiency in laser and coblation surgeries, FESS, and advanced nasal endoscopic procedures allows her to deliver minimally invasive solutions with faster recovery and excellent precision. This breadth of expertise consistently places her among the best ENT surgeons in Hebbal for both adult and paediatric patients. Dr. Manjula strongly believes that head and neck care extends beyond surgery alone. Her practice is grounded in a multidisciplinary, patient-centric philosophy, working closely with radiation oncology, medical oncology, neurosurgery, ophthalmology, dentistry, speech and swallowing therapy, and rehabilitation services. This integrated approach ensures that patients with cancer and complex structural disorders receive seamless, holistic care from diagnosis through treatment and long-term follow-up. In addition to her clinical excellence, Dr. Manjula has made significant contributions to academics, research, and postgraduate training. She has been actively involved in mentoring and guiding DNB trainees, serving as a thesis guide and participating in departmental audits and academic programs. Her scholarly work

includes a substantial number of peer-reviewed publications in national and international journals, covering areas such as head and neck cancer outcomes, skull base surgery, swallowing dysfunction, vocal cord paralysis, mucormycosis, and reconstructive techniques. Her research reflects a sustained commitment to evidence-based practice and continuous advancement of surgical standards. Her contributions have been widely recognised through multiple gold medals and national awards for best paper, poster, innovation, and research presentations at leading ENT and head and neck oncology conferences. These accolades underscore her ability to combine clinical expertise with academic insight and innovation. Patients and peers alike value her clarity of thought, ethical decision-making, and calm leadership in managing complex and high-risk cases. What truly distinguishes Dr. Manjula is her empathetic communication and meticulous attention to functional outcomes. She takes time to counsel patients and families, explain treatment options in detail, and align surgical decisions with individual needs and expectations. Her approach fosters trust, confidence, and long-term therapeutic relationships, qualities that patients consistently associate with the best ENT surgeon in Hebbal. Through her work at Manipal Hospital Hebbal, Dr. Manjula B V continues to deliver advanced, compassionate, and evidence-based ENT and head and neck surgical care, combining decades of experience with a commitment to innovation, safety, and patient dignity.

Field of Expertise

- Ear, Nose and Throat Surgeries
- Head & Neck Cancer resection & reconstruction surgeries
- Oral cancer resection and reconstruction surgery
- Open skull base surgery
- Endoscopic anterior skull base surgeries for benign and malignant tumours

- Pituitary surgeries
- Vascular anomalies
- Laryngotracheal reconstruction
- Paediatric airway surgeries
- Thyroid and parathyroid surgeries
- Laryngeal reinnervation surgeries
- Phonomicro surgeries
- Voice change surgeries
- Salivary gland surgeries
- Laser and Coblation surgeries
- FESS and advanced Nasal endoscopic surgeries
