

DR. PRASAD NARAYANAN

Senior Consultant - Medical Oncology, Haemato-Oncology, and Bone Marrow Transplantation

Qualification

MBBS | MD | DM

Overview

Dr. Prasad Narayanan is a highly accomplished medical oncologist in Hebbal. He is currently practising as a Senior Consultant – Medical Oncology, Haemato-Oncology, and Bone Marrow Transplantation at Manipal Hospital Hebbal, Bangalore, bringing more than two decades of specialised experience in delivering comprehensive and advanced cancer care. With strong training in internal medicine and super-specialisation in medical oncology, Dr. Prasad is widely respected for his methodical, research-focused, and compassionate approach to managing both solid tumours and blood-related cancers. He obtained his MBBS from Trivandrum Medical College, followed by an MD in General Medicine from NSCB Medical College, Jabalpur, and went on to complete his DM in Medical Oncology from Tata Memorial Hospital, Mumbai, one of India’s foremost cancer institutes. This robust academic foundation has equipped him with deep expertise in cancer biology, systemic anticancer therapies, and multidisciplinary oncology practice. Over the years, he has developed a distinguished career centred on complex cancer management, with particular focus on haematological malignancies, stem cell transplantation, precision

oncology, and advanced cellular therapies. Dr. Prasad has extensive experience working in NABH- and JCI-accredited healthcare institutions, where he has played a pivotal role in setting up and strengthening medical oncology and bone marrow transplant services. He has contributed significantly to the development of integrated cancer programmes that combine medical oncology, haemato-oncology, transplant medicine, supportive care, and clinical research. His clinical expertise includes the management of challenging conditions such as leukaemias, lymphomas, multiple myeloma, and a wide spectrum of solid tumours, using personalised, evidence-based treatment strategies aligned with international guidelines. One of the cornerstones of Dr. Prasad's clinical practice is bone marrow transplantation and cellular therapy. He has been involved in more than 250 stem cell transplants, overseeing both autologous and allogeneic procedures and guiding patients through every phase of care, from pre-transplant preparation to long-term follow-up. His keen interest in immunotherapy, targeted therapy, and molecularly driven precision oncology enables him to design treatment plans based on tumour genetics and individual patient profiles, improving outcomes while reducing treatment-related toxicity. A strong advocate of evidence-based medicine, Dr. Prasad remains deeply engaged in clinical and translational research. For over 20 years, he has actively participated in numerous Phase I, II, and III clinical trials, including investigator-led and industry-sponsored studies. His academic work includes more than 22 peer-reviewed publications and three book chapters, along with regular contributions to national and international scientific meetings. These achievements reflect his commitment to advancing cancer therapeutics and bringing innovative treatment options into clinical practice. At Manipal Hospital Hebbal, Dr. Prasad is known for his holistic and patient-centred philosophy of care. He believes that effective cancer management must address not only the disease but also the emotional, psychological, and long-term needs of patients and families. His approach emphasises open communication,

detailed counselling, shared decision-making, and close monitoring throughout treatment. This empathetic style is particularly valued by patients undergoing prolonged therapies such as chemotherapy, immunotherapy, and transplant-based treatments. Alongside his clinical responsibilities, Dr. Prasad is actively involved in mentorship and medical education, contributing to the professional development of young oncologists and healthcare teams. His leadership in oncology services, dedication to ethical practice, and academic contributions have earned him recognition, including the CME Excellence Dronacharya Award. Patients looking for the best medical oncologist in Hebbal often appreciate his ability to combine scientific precision with genuine compassion, delivering care that is both technologically advanced and deeply human. With a career defined by academic rigour, procedural expertise, and continuous innovation, Dr. Prasad Narayanan continues to play a key role in strengthening comprehensive cancer care at Manipal Hospital Hebbal. His long-standing experience and forward-looking approach to oncology position him among the most trusted specialists for individuals seeking the best medical oncologist in Hebbal for both routine cancer management and highly complex oncological conditions.

Fellowship & Membership

- Indian Cooperative Oncology Network
- Indian Society of Medical and Pediatric Oncology
- American Society of Clinical Oncology (ASCO)
- European Society of Medical Oncology (ESMO) Awards & Recognitions

Field of Expertise

- Medical Oncology

- Immunotherapy
- Clinical and Translational Research
- Stem Cell Transplant
- Head & Neck Cancer
- Breast Cancer
- Colorectal Cancer

Languages Spoken

- English
- Hindi
- Malayalam
- Tamil
- Kannada

Awards & Achievements

- Conducted over 250 stem cell transplants (including Auto, Allo, Haplo, and cord blood).
- Reviewer of the South Asian Journal of Cancer.
- Dronacharya Award (Oncology) in CME Excellence Summit and Awards 2019.
- First CAR T cell therapy trial in Multiple Myeloma in India.
- First CAR T cell therapy for an international patient was done in India.

Talks & Publications

- Authored chapters in textbooks.
- Presented lectures and papers at several national and international conferences.
