

DR. AMIT B

Associate Consultant - Paediatric Surgery

Qualification

MBBS | MS (General Surgery) | DNB (Paediatric Surgery) | PDF Paediatric Surgical Gastroenterology

Overview

Dr. Amit B is a dedicated paediatric surgeon, neonatal surgery specialist, and paediatric surgical gastroenterologist in Hebbal, Bangalore. He currently serves as Associate Consultant – Paediatric Surgery at Manipal Hospital Hebbal. Dr. Amit possesses specialised super-speciality training in neonatal congenital anomalies, advanced paediatric gastrointestinal and hepatobiliary surgeries, paediatric urology, and minimally invasive keyhole procedures (laparoscopy, thoracoscopy, and robotic paediatric surgery). His meticulous surgical precision and child-friendly clinical approach establish him as one of the best paediatric surgeons in Hebbal. Dr. Amit began his surgical training with an MBBS, followed by an MS in General Surgery. Driven by a commitment to treating complex surgical conditions in infants and children, he pursued a super-speciality DrNB in Paediatric Surgery from the prestigious VMMC & Safdarjung Hospital, New Delhi. To attain advanced subspecialty mastery, he completed a competitive Post-Doctoral Fellowship (PDF) in Paediatric Surgical Gastroenterology at the renowned Sanjay Gandhi Postgraduate Institute of Medical Sciences (SGPGIMS / SGPGI), Lucknow. This training equips him with

deep expertise in managing complex congenital anomalies, hepatobiliary disorders, and advanced minimally invasive paediatric procedures. At Manipal Hospital Hebbal, Dr. Amit provides comprehensive surgical care for neonates, infants, children, and adolescents. His neonatal practice focuses on urgent and life-saving corrective surgeries for newborns with congenital diaphragmatic hernia (CDH), tracheoesophageal fistula (TEF), oesophageal atresia, gastroschisis, and intestinal atresias. In paediatric thoracic and airway conditions, he performs thoracoscopic and open resections for congenital lung lesions, including Congenital Pulmonary Airway Malformations (CPAM) and Congenital Lobar Emphysema (CLE). In paediatric gastroenterology and colorectal surgery, Dr. Amit specialises in the surgical management of anorectal malformations (Posterior Sagittal Anorectoplasty / PSARP), Hirschsprung's disease, achalasia cardia, and Infantile Hypertrophic Pyloric Stenosis (IHPS / pyloromyotomy). His paediatric urology practice encompasses pyeloplasty for pelviureteric junction (PUJ) obstruction, orchidopexy for undescended testes, and minimally invasive repairs for paediatric inguinal hernias and hydroceles. Using modern laparoscopic, thoracoscopic, and robotic techniques, he minimises tissue trauma to ensure faster recovery, less postoperative pain, and minimal scarring for young patients. An active contributor to paediatric surgical academics, Dr. Amit is a member of the Indian Association of Paediatric Surgeons (IAPS). He hosted the national conference APSOCON 2024, organised the award-winning Paediatric Surgery Week 2024, and has presented academic papers at national IAPS forums on colostomy techniques in high anorectal malformations (HARM), achalasia cardia, and robotic CDH repairs. Fluent in Kannada, English, Hindi, Telugu, and Tamil, Dr. Amit ensures reassuring, empathetic counselling for parents navigating critical surgical decisions, making him a top paediatric laparoscopic surgeon in Hebbal.

Fellowship & Membership

- DNB – Paediatric Surgery, VMMC & Safdarjung Hospital, New Delhi
- Post-Doctoral Fellowship (PDF) – Paediatric Surgical Gastroenterology, SGPGI, Lucknow
- Member – Indian Association of Paediatric Surgeons (IAPS)

Field of Expertise

- Neonatal surgeries (TEF, CDH, gastroschisis, intestinal atresias)
- Congenital lung lesions (CLE, CPAM)
- Anorectal malformations (PSARP)
- Paediatric hernia (open & laparoscopic)
- Undescended testis
- Pyeloplasty and paediatric urology
- Infantile hypertrophic pyloric stenosis (IHPS)
- Paediatric gastrointestinal surgeries
- Emergency paediatric surgical care

Languages Spoken

- English
- Hindi
- Kannada
- Telugu
- Tamil

Awards & Achievements

- Organised Award-Winning Paediatric Surgery Week – 2024
- Hosted APSOCON 2024 (National Conference)

- Recognised for contributions to paediatric surgical academics

Talks & Publications

- Paper presentation at IAPS Conference on colostomy techniques in HARM
- Video and poster presentations at multiple national paediatric surgery conferences
- Regular faculty participation in paediatric surgery academic meetings
