

DR. SHYAM SUNDAR B

Consultant - Nephrology & Transplant Physician

Qualification

MBBS | MD (Medicine) | DNB (Nephrology)

Overview

Dr. Shyam Sundar B is a distinguished nephrologist and kidney transplant physician in Hebbal, Bengaluru, bringing over 10 years of focused clinical experience in comprehensive renal medicine, complex dialysis modalities, and high-risk kidney transplantation. Dr. Shyam Sundar B is currently practising as a Consultant – Nephrology & Transplant Physician at Manipal Hospital Hebbal, Bengaluru, where he delivers structured, evidence-based, and compassionate care for acute, chronic, and end-stage renal diseases. Recognised for his clinical acumen, thorough evaluations, and specialised procedural capabilities, Dr. Shyam Sundar is widely regarded as one of the best nephrologists in Hebbal, Bangalore. Dr. Shyam Sundar completed his undergraduate medical education (MBBS) from Vinayaka Missions Medical College, under Pondicherry University. He completed his postgraduate Doctor of Medicine (MD) in General Medicine from Government Mohan Kumaramangalam Medical College, Salem. Committed to advancing his expertise in super-speciality renal care, he completed his Diplomate of National Board (DNB) residency in Nephrology at Manipal Hospital, Bangalore. This rigorous training

across premier academic and high-volume clinical institutions established a comprehensive foundation in clinical nephrology, electrolyte management, interventional renal procedures, and renal replacement therapies. At Manipal Hospital Hebbal, Dr. Shyam Sundar B provides full-spectrum outpatient and inpatient clinical care for complex kidney conditions. As a top nephrologist and kidney transplant doctor in Bangalore, his practice covers acute kidney injury (AKI), chronic kidney disease (CKD), glomerulonephritis, diabetic nephropathy, severe electrolyte and acid-base disturbances, and hypertension-related renal disorders. In interventional nephrology, he possesses specialised procedural competence in performing percutaneous ultrasound-guided renal biopsies for definitive histopathological diagnosis, as well as tunnelled permanent dialysis catheter (Permcath) insertions for vascular access. He manages all modalities of renal replacement therapy, guiding patients and caregivers through individualised hemodialysis and peritoneal dialysis (CAPD/APD) regimens. A core pillar of Dr. Shyam Sundar's clinical practice is renal transplantation. He is proficient in managing the complete continuum of transplant care, including comprehensive pre-transplant donor and recipient evaluations, HLA typing, immunological risk assessments, and post-transplant immunosuppression protocols to safeguard long-term graft survival. His clinical repertoire includes handling complex and high-risk transplant cases, notably ABO-incompatible kidney transplants, which demand meticulous desensitisation protocols, pre-transplant preparation, and dedicated postoperative vigilance to prevent rejection. Fluent in English and Kannada, Dr. Shyam Sundar combines rigorous diagnostic evaluation with an unhurried, patient-first consultation approach, ensuring clear communication, empathetic counselling, and dedicated long-term disease management for patients and their families.
