

DR. NANDINI DEVI

Consultant - Obstetrics & Gynaecology

Qualification

MBBS | DGO | Post-Graduate Medical Diploma in Obstetrics and Gynaecology | Diploma in Advanced Gynaecological Endoscopic Surgery

Overview

Dr. H. R. Nandini Devi is a highly distinguished obstetrician, gynaecologist, sonologist, and advanced laparoscopic surgeon at Indira Clinic, Bangalore, bringing over 40+ years of clinical and surgical expertise. She is currently practising as a Consultant - OBG at Manipal Hospital Indira Clinic, providing comprehensive, evidence-based, and compassionate women’s healthcare. Renowned for her clinical diagnostic acumen, precision in obstetric ultrasound, and minimally invasive surgical capabilities, she is considered by patients and peers as one of the best gynaecologists and obstetricians in Indira Clinic, Bangalore. Dr. Nandini Devi completed her undergraduate medical education (MBBS) from Karnataka Medical College, Hubli, Karnataka, in June 1981. Pursuing postgraduate specialisation in women's health, she earned her D.G.O. from Kasturba Medical College, Mangalore, in July 1984, securing the 1st Rank and Gold Medal. She also obtained the Post-Graduate Medical Diploma in Obstetrics and Gynaecology from Bangalore University in 1984. Committed to global benchmarks in minimally invasive surgery, she attained a Diploma in Advanced

Gynaecological Endoscopic Surgery from the International Centre of Endoscopic Surgery (CICE), France, in 2011. Early in her career, she served as a resident doctor at the Kidwai Memorial Institute of Oncology (1984) and trained under Dr. Malathi Rao from 1985 to 1997. She further enriched her technical skills at Muenster University, Germany (1992), undergoing intensive training in endoscopic surgery, Doppler ultrasound, and ultrasound-guided interventions. At Manipal Indira Clinic, Dr. H. R. Nandini Devi manages a broad spectrum of routine and high-risk obstetric and gynaecological conditions. As an experienced gynaecologist in Indira Clinic, Bangalore, her surgical experience includes advanced laparoscopy and hysteroscopy for uterine and ovarian pathologies, minimally invasive management of fibroids and endometriosis, and tubal microsurgery. A pioneer in endosonography and imaging, she provides high-precision ultrasonography, obstetric Doppler assessments, ultrasound-guided diagnostic and therapeutic procedures, and specialised fetal therapy. Her clinical scope also encompasses comprehensive antenatal management, high-risk pregnancy care, sonoembryology, adolescent health, and the evaluation of complex endocrine and reproductive issues such as primary amenorrhoea. Dr. Nandini Devi has been a prominent academic contributor, presenting original clinical papers and guest lectures at state and national forums. Her academic milestones include presenting early original research on antepartum detection and treatment of fetal thyroid goitre, papers on Carboprost in obstetrics, first-trimester bleeding, and ultrasonography at the All India FOGSI Conference. She authored the chapter on “Fetal Therapy” in a textbook edited by Dr. S. Gunasheela, wrote on neonatal infection prevention, and coordinated the practical postpartum drill at the BSOG CME. Dr. Nandini holds Life Memberships with the Federation of Obstetric and Gynaecological Societies of India (FOGSI), Bangalore Society of Obstetricians and Gynaecologists (BSOG), Indian Association of Gynaecological Endoscopists (IAGE), Indian Society of Minimal Access & Gynaecological Endoscopic Surgery (ISAGES), Indian Academy of

Human Reproduction (IAHR), Society for Fetal Medicine and Genetics (SOFEM), and Indian Society for Prenatal Diagnosis and Therapy (ISPAT), and serves on the Executive Committee of the Medical Ultrasound Society of Karnataka (MUSK). She also serves as the coordinator of “Ananya Arogyadhara”, a voluntary initiative supporting the healthcare needs of musicians and artists in Karnataka. Fluent in Kannada, English, and Hindi, Dr. Nandini Devi combines profound clinical wisdom with empathetic, transparent patient counselling, ensuring personalised care pathways and dedicated support for women across all phases of life.

Fellowship & Membership

- Life Member – Federation of Obstetric and Gynaecological Societies of India (FOGSI)
- Life Member – Bangalore Society of Obstetricians and Gynaecologists (BSOG)
- Life Member & Executive Committee Member – Medical Ultrasound Society of Karnataka (MUSK)
- Life Member – Indian Academy of Human Reproduction (IAHR)
- Life Member – Indian Association of Gynaecological Endoscopists (IAGE)
- Life Member – Indian Society of Minimal Access & Gynaecological Endoscopic Surgery (ISAGES)
- Life Member – Society for Fetal Medicine and Genetics (SOFEM)
- Life Member – Indian Society for Prenatal Diagnosis and Therapy (ISPAT)
- Life Member – Indian Faculty of Endosonography and Endoscopy (IFEE)

Field of Expertise

- Laparoscopy and hysteroscopy
- Ultrasonography and obstetric Doppler
- Ultrasound-guided procedures
- Fetal therapy

Languages Spoken

- Kannada
- English
- Hindi

Talks & Publications

- Presented a paper on “Uses of Carboprost in Obstetrics & Gynaecology” at a BSOG meeting on 2 February 1986.
- Wrote an article on “Prevention of Neonatal Infections” for a souvenir of Infectious Diseases in Children, Lakeside Medical Trust, in 1988.
- Presented “Ultrasonography, a brief resume” at the XXXIII All India FOGSI Conference, Mysore, on 29 December 1988.
- Presented “1st Trimester Bleeding and Ultrasound” at a BSOG meeting on 5 February 1989.
- Presented “Tubal Microsurgery” at a BSOG scientific session on 20 December 1992.
- Original work presented at a 1995 seminar on genetic and paediatric society meeting on antepartum detection of fetal thyroid goitre and treatment.
- Lectures on sonoembryology, urinary tract infection in pregnancy, sick fetus, invasive testing, adolescent health, ultrasonography in primary amenorrhoea and fetal therapy.
- Participated in symposia, panel discussions, debates and professional conferences.

- Co-ordinated the practical session on “Postpartum Drill” at the BSOG CME on 24 June 2004.
- Authored a chapter on “Fetal Therapy” in a book edited by Dr. S. Gunasheela.
