

DR. VAIBHAV GUPTA

Consultant - Nephrologist

Qualification

MBBS | DNB | DM (Nephrology)

Overview

Dr Vaibhav Gupta is an esteemed Nephrologist or Renal specialist in Jaipur, with renal care experience of over a decade. He graduated with an MBBS from The Tamil Nadu Dr M.B.R. Medical University, followed by a DNB and a DM in Nephrology from Gujarat University, which truly reflects a solid academic background in his speciality. Dr Gupta has been professionally trained in prestigious institutions and has a deep interest in Interventional Nephrology, kidney transplants, and complex renal therapies. He diagnoses and manages chronic kidney disease, performs kidney transplants, kidney biopsies, and performs various interventional nephrology techniques such as CRRT (Continuous Renal Replacement Therapy) and CAPD (Continuous Ambulatory Peritoneal Dialysis). Dr Gupta also treats the conditions of glomerulonephritis, hypertension-related kidney problems, and acute kidney injuries. He is known for customising treatment according to the specific requirements of every single patient; thus, he is practising at leading medical centres in Jaipur, where he is acknowledged for his extensive consultations and research-based treatment strategies. Dr Gupta's way to work centres around conversing with patients with compassion,

using advanced technology, and updating protocols in renal care, thus making him a more preferable choice than others for kidney patients in the area. His Clinical Skills, Patient Safety, and Medical Education are the factors that not only patients but also his peers appreciate about him. Dr Gupta's commitment to staying abreast with the latest advancements ensures that his patients have access to the most innovative and effective treatments available. His active involvement in continuing medical education and nephrology conferences underlines his dedication to improving patient outcomes. This proactive approach allows him to manage even the most complex kidney conditions with precision and care. With a focus on holistic patient management, Dr Gupta integrates lifestyle modifications, diet counselling, and personalised therapeutic interventions into his treatment plans, aiming for not only clinical improvement but also enhanced quality of life for his patients.
