

DR. ANIL KUMAR TENNELLI

Consultant - Paediatric Rheumatology

Qualification

M.B.B.S. | MD in Pediatrics | Fellow in Pediatric Rheumatology & Immunology

Overview

Dr. Anilkumar Tennelli is the best consultant paediatrics in Bangalore, currently associated with the Manipal Hospitals Jayanagar, Bangalore, with specialised training in Paediatric Rheumatology and Immunology. As a distinguished paediatrician in Bangalore, he brings a wealth of expertise to his practice, focusing on complex paediatric conditions and advancing the field through both clinical practice and research. He is well-versed in performing a wide range of procedures in Paediatrics, ranging from securing Intravenous Access to complex procedures like procuring Central Lines and performing Biopsy procedures and Intra-articular Injections. Dr. Anilkumar Tennelli earned his MBBS from Al-Ameen Medical College & Hospital, Vijayapura in 2014. He then pursued a Diploma in Child Health (DCH) at JJM Medical College, Davangere, in 2018. His commitment to paediatrics led him to attain his MD - Pediatrics from the prestigious Indira Gandhi Institute of Child Health (IGICH), Bangalore, in 2021. To further hone his expertise, Dr. Tennelli completed a Fellowship in Paediatric Rheumatology and Immunology at Manipal Hospitals Old Airport Road in 2023. Throughout his training, Dr. Anilkumar Tennelli has demonstrated exceptional

clinical acumen and a passion for paediatric care. His experience as a Paediatric Medicine Registrar at Manipal Hospitals Jayanagar, Bangalore, allowed him to manage a broad spectrum of paediatric cases, developing proficiency in securing intravenous access, central line placement, performing biopsies and administering intra-articular injections. His familiarity with the latest medical technologies, including conventional ventilation, underscores his capability to handle critical paediatric procedures. Besides, Dr. Tennelli's dedication to paediatric rheumatology and immunology is evident in his active involvement in research and academic pursuits. He has authored a book on “Interesting and Challenging Cases in Pediatrics”, further contributing to the literature in his field. Moreover, Dr. Tennelli is an active participant in the academic community, presenting his research at numerous national and international conferences. In addition to his research and clinical practice, Dr. Tennelli is committed to education and community engagement. He actively participates in workshops and certifications, including a Musculoskeletal Ultrasound Workshop by the Association of Indian Rheumatology, a Primary Immunodeficiency Workshop at PGIMER Chandigarh, and certifications in Advanced Neonatal Resuscitation (NRP) and Basic Life Support (BLS) by the Indian Academy of Pediatrics (IAP). Furthermore, Dr. Tennelli is multilingual and fluent in English, Hindi, and Kannada, which enables him to communicate effectively with a diverse patient populace. His interests span paediatric rheumatology, immunology, and neurology, and he continually seeks to enhance his skills and knowledge to provide the best possible care for his patients. His career objective is to leverage his extensive clinical and academic expertise to serve humanity, with a focus on research that advances the understanding and treatment of paediatric conditions.
