

DR. RAMESH SUNGAL

Consultant - Paediatrics

Qualification

MBBS | MD-Pediatrics

Overview

Dr. Ramesh Sungal is a renowned paediatrician in Bangalore, currently practising as a Consultant - Paediatrics at Manipal Hospital Kanakapura Road. With over 2+ decades of experience in pediatric medicine, Dr. Ramesh brings extensive clinical expertise and a compassionate, child-focused approach to patient care. He completed his MBBS from Mysore Medical College and obtained his MD in Paediatrics from Father Muller Medical College, Mangalore. He further pursued a Fellowship in Pediatric Emergency at Manipal Hospitals, sharpening his skills in managing acute and critical pediatric conditions. Dr. Ramesh has an outstanding reputation for his commitment to child health and wellness. His core areas of expertise include general paediatrics, routine newborn care, immunisation, pediatric pulmonology, and pediatric emergencies. He is particularly skilled in evaluating and managing children with respiratory illnesses, growth and developmental disorders, and nutritional deficiencies. His clinical decisions are grounded in evidence-based guidelines, ensuring each child receives the highest standard of care tailored to their individual health needs. At Manipal Hospital Kanakapura Road, Dr. Ramesh is known for his approachable and reassuring manner, which helps both children and their families feel at ease during consultations. His deep understanding of paediatric physiology allows him to detect subtle signs of illness early, leading to prompt and effective treatment. He regularly monitors newborns to ensure a healthy transition from birth and provides parents with guidance on feeding, immunisation schedules, and developmental milestones. Dr. Ramesh is also experienced in managing paediatric emergencies and critical care scenarios. His fellowship training enables him to confidently handle acute respiratory distress, febrile seizures, dehydration, trauma, and other pediatric emergencies. His rapid response and systematic approach during emergency care often prove life-saving in time-sensitive situations. Beyond clinical care, Dr. Ramesh is deeply committed to preventive paediatrics. He emphasises the importance of timely immunisations and early screening for developmental and behavioural disorders. He regularly conducts awareness sessions for parents on childhood nutrition, hygiene, and safety to promote holistic well-being in children. Dr. Ramesh collaborates closely with neonatologists, pediatric surgeons, pulmonologists, and intensivists to deliver multidisciplinary care. Dr. Ramesh Sungal speaks English, Kannada, Hindi, and Tulu, enabling him to effectively engage with families from diverse linguistic and cultural backgrounds, ensuring comfort, understanding, and compassionate care throughout the treatment.
