

## **DR. VISHWANATH B L**

Consultant - Internal Medicine

### **Qualification**

MBBS | MD (General Medicine)

### **Overview**

Dr. Vishwanath B L is an experienced diabetologist in Bangalore, practising as a Consultant – Diabetology at Manipal Hospital Kanakapura Road. With over 17+ years of clinical experience, Dr. Vishwanath B L is widely recognised for his expertise in managing diabetes, lifestyle disorders, and chronic infections. A strong advocate for preventive health and holistic wellness, he combines clinical acumen with a patient-first approach to restore health and well-being. His compassionate style, understanding of metabolic conditions, and commitment to evidence-based medicine make him a trusted name in general medicine and diabetology. Dr. Vishwanath holds an MBBS and MD in Internal Medicine from Rajiv Gandhi University of Health Sciences, with additional training in cardiology, ICU, neurology, oncology, and emergency medicine at reputed institutions. He is also a certified wellness expert and the author of the acclaimed book *Decoding Diabetes*, which reflects his passion for empowering patients to take control of their health. He regularly conducts wellness workshops and has delivered keynote talks across organizations, creating awareness about lifestyle modification and chronic disease

prevention. Dr. Vishwanath focuses on diagnosis, management, and follow-up care for various conditions including type 1 and type 2 diabetes, hypertension, dyslipidaemia, obesity, thyroid disorders, heart diseases, and other metabolic syndromes. His approach integrates medical therapy with nutritional guidance, exercise counselling, stress management, and behavioural modification. He also manages respiratory infections, typhoid, gastrointestinal illnesses, seasonal illnesses like fever and dengue, and multi-systemic disorders with equal proficiency. In diabetes care, Dr. Vishwanath B L specialises in early detection, intensive glucose control, and complication prevention strategies. He offers structured diabetes education, personalised treatment plans, and continuous support to help patients stabilise their blood sugar levels and improve their quality of life. His preventive care consultations include detailed lifestyle assessments, risk stratification, timely health screenings, and practical interventions for long-term health improvement. Whether it is reversing early diabetes, reducing cardiovascular risk, or improving energy and sleep, he supports patients with clarity and care. He is also actively involved in medical education, sharing his insights with undergraduate and postgraduate students through clinical case discussions and academic sessions on diabetes, obesity, and wellness. Dr. Vishwanath conducts workshops on wellness in various corporate companies and institutions to promote the concept of Holistic Wellness. He has delivered nearly 50 keynote speeches on Holistic Wellness and Lifestyle Diseases in various organizations and educational institutions. Dr. Vishwanath B L is known for his empathetic communication and ability to simplify complex medical conditions. With a calm and reassuring presence, he builds strong doctor-patient relationships based on trust, respect, and partnership in healing. Dr. Vishwanath is fluent in English and Hindi and ensures his patients feel understood, supported, and empowered throughout their journey to better health.
