

DR. TEJASWI V

Consultant - Diabetes and Endocrinology

Qualification

MBBS | MD Medicine | PGIMER | DM Endocrinology | AIIMS

Overview

Dr. Tejaswi Venkatesh is a well-known endocrinologist in Bangalore with over 6+ years of dedicated expertise in endocrinology. He is currently practising as a Consultant - Endocrinology at Manipal Hospital, Kanakapura Road. His clinical interests span a wide range of hormonal and metabolic conditions, with a strong focus on diabetes management, thyroid disorders, pituitary dysfunction, and adrenal diseases. He is particularly passionate about treating complex forms of diabetes, including type 1 diabetes, maturity-onset diabetes of the young (MODY), secondary diabetes due to pancreatitis, and gestational diabetes (GDM). Dr. Tejaswi’s academic journey includes an MBBS from Government Medical College, Mysuru, followed by an M.D. in Internal Medicine, from PGIMER, Chandigarh, and a D.M. in Endocrinology from AIIMS, New Delhi. His commitment to clinical research is evident through multiple original articles published in international peer-reviewed journals. He has also contributed to review articles and e-poster presentations in leading diabetes and liver disease forums. His awards include national recognition as an NTSE scholar and a Mathematics Olympiad winner. A firm believer in preventive

endocrinology, Dr. Tejaswi regularly advises patients on lifestyle modifications to reduce risk factors associated with obesity, metabolic syndrome, and osteoporosis. He expertly manages hormonal conditions such as PCOD, short stature, hypercalcemia, and metabolic bone disorders, using current clinical protocols. His interest in osteoporosis and pituitary disorders further adds depth to his practice, allowing him to support patients across age groups with comprehensive care. Dr. Tejaswi frequently engages in academic discussions and state-level medical conferences, sharing insights on hormonal health and emerging trends in endocrinology. His clinical acumen and research orientation enable him to bring cutting-edge medical advancements into everyday patient care. Dr. Tejaswi's dedication to his field, keen diagnostic abilities, and empathetic communication style make him a sought-after endocrinologist in Kanakapura. He is committed to raising awareness of endocrine disorders and continues to build long-term relationships with patients based on trust, transparency, and medical excellence. Fluent in English, Kannada, and Hindi, Dr. Tejaswi ensures that patients from diverse backgrounds receive clear, comforting, and effective communication throughout their treatment journey.
