

DR RADHIKA MANOHAR

Consultant - Neurology

Qualification

MBBS | MRCP (UK) | FRCP (UK) Clinical Neurophysiology & Neurology

Overview

Dr. Radhika Manohar is an experienced neurophysiologist in Kanakapura Road, Bangalore, currently practising as Consultant - Neurology at Manipal Hospital Kanakapura Road. Dr. Radhika brings advanced expertise in clinical neurophysiology and neuromuscular medicine, providing precise diagnostic and therapeutic care for a wide range of neurological conditions. With a strong academic background, global training, and commitment to clinical excellence, she plays a key role in delivering comprehensive neurological services at Manipal Hospitals. She is the best neurology doctor in Kanakapura. Dr. Radhika Manohar completed her MBBS at Kasturba Medical College, Mangalore, and subsequently obtained her MRCP from the United Kingdom. Furthering her specialisation, she completed the Certificate of Completion of Specialist Training (CCST) in Clinical Neurophysiology, which equipped her with a high level of proficiency in neuro-electrophysiological diagnostics and advanced neuromuscular assessment techniques. Dr. Radhika's clinical expertise lies in the evaluation and management of neuromuscular disorders, including motor neuron disease, myasthenia gravis, muscular dystrophies, and peripheral neuropathies. She is highly skilled in conducting nerve conduction studies (NCS) and electromyography (EMG), which are essential for diagnosing diseases that affect nerves and muscles. Her

in-depth understanding of these complex conditions allows for early and accurate diagnosis, ensuring effective treatment pathways for her patients. Dr. Radhika performs single-fibre EMG (jitter analysis) to assess neuromuscular junction disorders and utilises multichannel EMG techniques to evaluate movement disorders, like Parkinson's disease and dystonias. She is particularly recognised for her contributions in advanced neuro-electrophysiological procedures and diagnostics, playing a vital role in pre-surgical planning, intraoperative monitoring, and research-based applications. Her clinical decisions are grounded in the latest neurological guidelines and are tailored to meet each patient's unique presentation. At Manipal Hospitals, Dr. Radhika is committed to fostering strong doctor-patient relationships through clear communication, patient education, and compassionate care. Her thorough evaluations, precise diagnostics, and thoughtful counselling help patients and their families understand their neurological health better and navigate the course of treatment with confidence. Her work has been recognised through accolades such as the Clinical Excellence in Neurophysiology Award (2014) for her continued pursuit of excellence in neurological care. Dr. Radhika speaks Kannada, Telugu, English, and Hindi, offering compassionate care to a diverse patient population.
