

DR. MOHAMMAD SHAFI

Consultant - Anesthesiology

Qualification

MBBS | DA | DNB (EDIAC)

Overview

Dr. Mohammad Shafi is an experienced anaesthesiologist in Kanakapura Road, Bangalore. He is currently practicing as a Consultant - Anaesthesiology at Manipal Hospital on Kanakapura Road. Dr. Shafi brings over 15+ years of experience in the field of anaesthesia and perioperative care, having worked extensively across multiple surgical disciplines, including neurosurgery, cardiothoracic surgery, paediatrics, gastroenterology, orthopaedics, and critical care. His expertise spans both elective and emergency procedures, where he ensures patient safety, comfort, and stable intraoperative and postoperative outcomes. Known for his precision and calm under pressure, he is a trusted team leader in high-acuity environments. Dr. Shafi began his medical journey with an MBBS from KBNIMS, Gulbarga, followed by a Diploma in Anaesthesia (DA) from Navodaya Medical College, Raichur. He further advanced his expertise by earning a DNB in Anaesthesiology from the prestigious Narayana Hrudayalaya, Bengaluru, where he trained under rigorous critical care and surgical protocols. His clinical acumen and dedication have led him to serve as Senior Consultant at Manipal Hospital Jayanagar, before continuing his role at the

Kanakapura Road branch. With a deep commitment to continual learning, Dr. Shafi has participated in numerous national and international workshops and conferences, including those focused on paediatric anaesthesia, neuroanaesthesia, hemodynamic monitoring, and advanced mechanical ventilation. He has undergone certified training in BLS and ACLS and is a life member of the Indian Society of Anaesthesiologists (ISA), the Indian Medical Association (IMA), and the European Society of Anaesthesia. These affiliations reflect his global outlook on best practices and adherence to international safety standards. Clinically, Dr. Shafi is proficient in managing a wide spectrum of anaesthetic procedures—from general anaesthesia to regional blocks and advanced airway management. He is well-versed in fibre-optic intubation, retrograde and blindnasal intubations, paediatric regional blocks such as caudal and epidural anaesthesia, as well as ultrasound-guided nerve blocks. His skill set also includes invasive monitoring techniques like central venous catheterisation, arterial line placement, and the use of PA catheters. He regularly handles OPD-based pre-anaesthetic assessments and postoperative pain management, ensuring patients are well-informed and optimally prepared. Dr. Shafi is also experienced in anaesthesia for image-guided and non-OR procedures such as ERCPs, endoscopies, MRIs, CT-guided biopsies, and electroconvulsive therapy. His leadership in anaesthesia support for critically ill patients includes emergency airway management, transport of ventilated patients, and performing life-saving interventions such as cricothyrotomy and percutaneous tracheostomy. A calm and methodical presence in the operating theatre, Dr. Mohammad Shafi is committed to ensuring patient safety, seamless multidisciplinary coordination, and quality care from the moment a patient enters the preoperative suite until their full recovery.

Fellowship & Membership

- ISA Membership.
- ESA Membership.
- IMA Membership.

Field of Expertise

- General Anaesthesia, Regional Anaesthesia.
- Ultrasound Guided Nerve Blocks.
- Epidural Labour Analgesia And Obstetric Anaesthesia.
- Neuroanaesthesia And Paediatrics.
- Pain Medicine.
- Nora Anaesthesia Procedures.
