

DR. SHRIRAM SHENOY

Consultant- Pulmonologist

Qualification

MBBS | DTCD | DNB

Overview

Dr. Shriram Shenoy is a renowned consultant pulmonologist currently practicing at Manipal Hospital, Kharadi, Pune. With extensive experience in respiratory medicine, he has gained expertise in pulmonology, critical care, and interventional procedures. His academic involvement includes serving as faculty at Symbiosis Medical College for Women, Pune, reflecting his dedication to teaching and mentoring future medical professionals. His educational background is equally impressive, with a Diplomate of National Board (DNB) in Respiratory Diseases from Kokilaben Dhirubhai Ambani Hospital, a Diploma in Tuberculosis and Chest Diseases (DTCD), and an MBBS from Rural Medical College, Maharashtra. He further honed his skills with a Fellowship in Interventional Pulmonology at Max Superspeciality Hospital, Saket. His membership in esteemed organizations such as the Indian Chest Society, Chest Council of India, and European Respiratory Society highlights his commitment to staying at the forefront of respiratory medicine. Dr. Shenoy has contributed significantly to medical research, with multiple publications in both national and international journals. His work covers a broad range of topics,

including fibrotic interstitial lung disease, eosinophilic pleural effusion, and drug-induced respiratory complications. His research and presentations at prestigious conferences, including NAPCON and the Bronchopulmonary World Congress, have been widely recognized, with his paper on nutritional deficiency in COPD winning an award in 2023. Beyond clinical practice and research, Dr. Shenoy has actively participated in academic competitions and medical symposiums, securing top positions in various quizzes and presentations. He has also demonstrated a keen interest in extracurricular activities such as photography and outdoor sports. His well-rounded profile, combining clinical excellence, research contributions, and academic mentorship, makes him a distinguished expert in the field of pulmonology.
