

DR. MANISHKUMAR MALI

Consultant - Nephrologist

Qualification

MBBS | MD | DNB (Nephrology)

Overview

Dr. Manishkumar Mali is a highly qualified and experienced consultant and department coordinator in neurology at Manipal Hospital, Kharadi, Pune. With over 16 years of expertise, he specializes in kidney transplants, including complex cases such as ABO-incompatible transplants, mutual swap donor transplants, and pediatric kidney transplants. He holds an MBBS and MD (Paediatrics) from the University of Pune, a DNB in Nephrology from Jaslok Hospital, Mumbai, and is currently pursuing a PhD in Nephrology at DY Patil University. Additionally, he has completed specialized transplant medicine training in the Netherlands and South Korea. Dr. Mali has been actively involved in academics, serving as a DNB guide and co-guide for nephrology students and as a professor at Bharati Vidyapeeth Medical College. He is a registered medical practitioner with MMC and a member of prestigious nephrology organizations, including the Indian Society of Nephrology, the Indian Society of Organ Transplantation, and the American Society of Nephrology. His career highlights include performing India’s oldest living kidney donor transplant (donor aged 77 years) and pioneering challenging nephrology procedures. He is known

for his patient-centric approach, ensuring personalized care, compassionate treatment, and the highest medical standards for his patients.
