

DR. MANOHAR SAKHARE

Consultant - Cardiology

Qualification

MBBS | MD | DM Cardiology (AIIMS, Delhi)

Overview

Dr. Manohar Sakhare is a highly experienced Consultant Cardiologist at Manipal Hospital, Kharadi, Pune, with over 25 years of experience in the field of medicine. He has performed more than 10,000 angioplasty surgeries during his career. He has undergone advanced training at the prestigious All India Institute of Medical Sciences (AIIMS), Delhi. After completing his MBBS from Government Medical College (GMC), Nagpur, he pursued his MD in Internal Medicine and DM in Cardiology from AIIMS, further strengthening his expertise in managing complex cardiac cases. Dr. Sakhare has performed over 10,000 PTCA (Percutaneous Transluminal Coronary Angioplasty) procedures, with more than 90% conducted using the trans-radial approach, a technique known for reduced recovery time and fewer complications. His areas of proficiency include permanent pacemaker implantation (PPI), automatic implantable cardioverter defibrillator (AICD), balloon mitral valvotomy (BMV), carotid and peripheral angioplasty, as well as pediatric cardiac interventions like ASD, VSD, and PDA device closures. In addition to his clinical excellence, Dr. Sakhare has a strong interest in academic research. He has contributed to the field with his

publication on contrast-induced nephropathy and continues to integrate the latest scientific evidence into his clinical practice to ensure optimal outcomes for patients.

Field of Expertise

- Done more than 10,000 PTCA more than 90% of procedures done by transradial route. Doing almost all interventions in Cardiology, including PPI, AICD, BMV, Carotid plasty, peripheral plasty, and all pediatric interventions, including ASD, VSD and PDA device closures.
