

DR. ADITYA GIRISH BORAWAKE

Consultant - Medical Gastroenterology

Qualification

MBBS | MD MEDICINE | DM GASTROENTEROLOGY

Overview

Dr. Aditya Girish Borawake is an established physician who has specialised training in medical gastroenterology. Based on a stellar academic record and opportunities for clinical exposure, he developed a wide spectrum of knowledge regarding gastrointestinal, hepatic, and pancreatic disorders. Dr. Borawake acquired his MBBS from Dr. Vaishampayan Memorial Medical College, Solapur. He did his MD in Medicine from Bharati Vidyapeeth Medical College, Pune. Later, he did his DM in Medical Gastroenterology from the Amrita Institute of Medical Sciences, Kochi, to hone further his diagnostic and treatment skills in the area. Dr. Borawake has actively worked in both academic and clinical settings. He has served as a Senior Resident in a reputed teaching hospital and worked as a Consultant Physician in a multi-speciality hospital, where he managed a wide range of internal medicine and gastroenterology cases. His current training in advanced therapeutic gastroenterology includes proficiency in procedures such as ERCP, EUS, upper and lower GI endoscopy, variceal banding (EVL), glue injection, argon plasma coagulation (APC), polypectomy, PEG tube placement, and stricture dilatation. He is also experienced in managing

complex cases in liver ICU settings and performing Fibroscan evaluations. His work goes beyond clinical practice. Dr. Borawake has presented papers and posters at several national and international conferences and has published original research in peer-reviewed journals. His contributions reflect a strong academic orientation and a commitment to evidence-based medicine. Topics he has explored include alcoholic liver disease, acute renal failure, diabetic complications, and interventional gastroenterology. Throughout his career, Dr. Borawake has developed a strong reputation as a patient-oriented physician who prioritises accurate diagnosis, timely intervention, and thorough follow-up care. He constantly stays apprised of new treatment protocols and avalanches of novel therapeutic advances that he incorporates into his practice. He has also been fluent in English, Hindi, Marathi, and Marwadi, ensuring clear communication with patients from diverse linguistic and cultural backgrounds. He wants to continue making meaningful contributions to the field of gastroenterology in terms of clinical practice, research, and ways to innovate.

Field of Expertise

- ERCP.
- EUS.
- Upper GI endoscopy.
- Lower GI Endoscopy (Colonoscopy).
- EVL (Banding).
- Glue injection.
- APC (Argon Plasma Coagulation).
- Polypectomy.
- PEG tube placement.
- Hemospray application.
- Esophageal & pyloric stricture dilatation.
- Experience in managing Liver ICU.

- Expertise in Fibroscan.
