

DR. AKASH MOTGI

Consultant - Interventional Cardiologist

Qualification

MBBS | MD | DNB (Cardiology)

Overview

Dr. Akash Motgi is a senior Consultant Interventional Cardiologist at Manipal Hospitals Kharadi, bringing over 14 years of clinical experience in the comprehensive management of heart diseases. He is widely regarded for his expertise in advanced coronary interventions and his commitment to delivering safe, evidence-based, and patient-focused cardiac care. Dr. Motgi completed his MBBS from a renowned Medical College in 2000 and went on to pursue an MD in Medicine from a well-known college in Pune in 2007. To further specialise in cardiology, he obtained his DNB in Cardiology in 2012. His strong academic foundation, combined with extensive hands-on experience, allows him to manage both routine and complex cardiac conditions with precision. As an experienced interventional cardiologist in Kharadi, Dr. Motgi has performed a large number of coronary angiographies and angioplasties, including high-risk and complex coronary procedures. His areas of expertise include bifurcation stenting, multivessel PTCA, and chronic total occlusion (CTO) interventions. He also provides comprehensive care for patients with hypertension, heart failure, cardiac arrhythmias, and valvular heart diseases. At Manipal Hospitals

Kharadi, Dr. Akash Motgi emphasises early diagnosis, minimally invasive treatment techniques, and long-term cardiovascular risk management. He believes in personalised treatment planning and works closely with patients and their families to ensure informed decision-making. His ethical approach, clinical accuracy, and dedication to improving heart health make him a trusted name in interventional cardiology in Pune.
