

DR. VINAY A V

Consultant - General Surgery

Qualification

MBBS | MS (Gen. Surgery) | FMAS

Overview

Dr. Vinay A V is an experienced general surgeon in Bangalore. He is currently practicing as a Consultant - General Surgery at Manipal Hospital, Yeshwanthpur, Bangalore. With over 11 years of experience in this field, Dr. Vinay specializes in performing complex surgeries and providing comprehensive care to patients. He holds an M.S. in General Surgery and is a Minimal Access Surgery (FMAS) Fellow, further enhancing his expertise in minimally invasive surgical procedures. Dr. Vinay completed his MBBS from JSS Medical College, Mysore, and pursued his M.S. in General Surgery. His passion for surgery and patient care is reflected in his academic excellence and practical knowledge. Throughout his career, he has gained substantial experience in handling a wide range of surgical cases, from routine to high-risk surgeries, ensuring the best possible outcomes for his patients. Dr. Vinay is interested in gastroenterology, particularly in diagnosing and treating gastrointestinal diseases. He is well-versed in laparoscopic surgery and focuses on providing minimally invasive treatment options that promote faster recovery and reduced post-surgical complications. His commitment to adopting the latest surgical

technologies and techniques ensures that his patients receive the highest standard of care. In addition to his clinical expertise, Dr. Vinay is dedicated to educating patients about their medical conditions and the importance of preventive care. He regularly counsels patients on lifestyle changes and post-surgery care to help improve their long-term health. His approach is patient-centric, always prioritizing the individual needs of each person he treats. He is also experienced in performing a variety of surgeries, including but not limited to abdominal, hernia, and gallbladder surgeries. Besides his professional practice, Dr. Vinay speaks Kannada, Hindi, and English fluently, which helps him effectively communicate with a diverse range of patients. His ability to converse in these languages allows him to build rapport and ensure his patients fully understand their diagnosis and treatment plan.
