

DR. UMESH NAREPPA

Consultant - Cardiovascular and Thoracic Surgery

Qualification

MBBS | MS | MCh

Overview

With over 25 years of in-depth knowledge, Dr. Umesh Nareppa is a respected cardiovascular and thoracic surgery consultant. He is presently a key employee of Bangalore's renowned Manipal Hospitals, Millers Road. Dr. Nareppa's rigorous attention to detail, accurate diagnostic abilities, and considerate patient care have earned him a well-deserved reputation. His knowledge enables him to handle difficult medical situations with outstanding competence and effectiveness. Dr. Nareppa's strong educational background and ongoing quest for knowledge are evidence of his commitment to greatness. He has an MCh in cardiothoracic and vascular surgery, an MS in general surgery, and an MBBS. He has pursued specialised training and fellowships in addition to his official schooling to deepen his competence. Notably, he finished a fellowship in adult cardiac surgery at Emory University in Atlanta, Texas, and earned useful expertise at the renowned Heart Institute in Houston. His affiliations are in well-known medical organisations, such as the International Society for Minimally Invasive Cardiothoracic Surgery and the Society of Thoracic Surgeons in the United States, that indicate Dr. Nareppa's dedication to furthering medical knowledge. Dr. Umesh is the best cardiothoracic surgeon in Bangalore. The extraordinary abilities and achievements of Dr. Nareppa have marked him as a leading figure in thoracic and cardiovascular surgery. He was a team member who performed the first heart transplant at Vikram Hospital, among other notable accomplishments. He has gained respect from peers and coworkers for his knowledge and leadership skills. Dr. Nareppa is a highly sought-after consultant in medical teams, where he plays a crucial role in providing patients with the finest treatment possible. He is acknowledged for his collaborative style and thorough attention to detail. Dr. Nareppa constantly works with the community in addition to his clinical and research activities to spread awareness and offer educational tools. He has given insightful lectures on challenging medical problems, demonstrating his proficiency in explaining complicated medical ideas. His efforts also go beyond the English-speaking community because he speaks Telugu, Hindi, and Kannada fluently, ensuring that patients from all linguistic backgrounds receive thorough treatment. Dr. Nareppa has also made significant contributions by translating medical material into Hindi so that a larger audience may understand it, such as the "Cardiometabolic Syndrome" webpage.
