

DR. RAVI KIRAN C S

Consultant - Paediatric Surgery

Qualification

MBBS | MS (General Surgery) | MCh

Overview

The highly respected Dr. Ravi Kiran C S has achieved enviable success in his medical career. His extraordinary skills and dedication have earned him a sterling reputation for providing exemplary healthcare services to his patients. With an immense experience of 25 years in medicine, including 19 as a specialist, his impressive knowledge of paediatric surgery and urology is undeniable. His outstanding educational qualifications, such as an MBBS and MS in General Surgery plus an MCh in paediatric surgery, testify to his commitment to continuous learning and professional development. Boasting a vast range of specialities, Dr. Ravi Kiran is excellent in general paediatric surgery, treating different ailments in infants, children, and adolescents. His skill set also encompasses the more refined area of paediatric urology, which is dedicated to pinpointing and surgically treating urological issues in children. He is also skilled in neonatal surgery, paediatric thoracic surgery, and paediatric laparoscopy, to mention a few. Dr. Ravi Kiran is a member of several prestigious medical associations, including the Indian Association of Paediatric Surgeons, Paediatric Endoscopic Surgeons of India, and the Indian

Medical Association. He is dedicated to professional collaboration and eager to stay current on the latest breakthroughs. Fluency in multiple languages is another asset of Dr. Ravi Kiran. He can converse in English, Kannada, and Hindi, which makes effective communication with patients from diverse linguistic backgrounds. This language proficiency provides comprehensive and personalised healthcare services to all his patients. Dr. Ravi is the best paediatric surgeon in Millers Road, Bangalore. Dr. Ravi Kiran has garnered various awards for his outstanding efforts during his career. He was ninth in the Mysore University MBBS Examination, demonstrating his academic brilliance. His contributions to the medical field are not limited to his clinical practice alone. Dr. Ravi Kiran has also presented talks and published research papers on various medical topics. His research includes subjects such as pancreatic abnormalities, urinary incontinence management, neurenteric cysts, and splenogonadal fusion, which are published in renowned medical journals. Dr. Ravi Kiran C S, an esteemed paediatric surgeon, has earned admiration for his profound dedication to his profession and patients. He is renowned for taking a compassionate and empathetic approach to medical care, rooting his interactions in an earnest desire to promote optimal well-being. With a comprehensive understanding of general paediatric surgery, paediatric urology, and other specialised areas, and a multilingual command of the subject, Dr. Ravi Kiran C S has become a highly sought-after figure in the healthcare sector. He holds an unwavering commitment to providing the best quality care and engaging in endless self-improvement, thus perfectly illustrating the importance of the medical field. With his vast achievements, Dr. Ravi Kiran C S has achieved significant recognition in the medical arena for his unparalleled success.
