

## **DR. JAYASHREE N. BHASGI**

Visiting Consultant – Obstetrics and Gynaecology

### **Qualification**

MBBS | MD (Obstetrics & Gynaecology)

### **Overview**

Dr. Jayashree N. Bhasgi is an accomplished obstetrician in Bengaluru. She is currently practising as a Visiting Consultant – Obstetrics and Gynaecology at Manipal Hospital Millers Road, bringing over 30+ years of clinical expertise in managing routine and complex pregnancies with a sustained focus on maternal safety and evidence-based obstetric care. With a career that spans academic teaching, tertiary hospital practice, and high-volume private obstetric care, Dr. Jayashree has built a reputation for managing high-risk pregnancies with clinical precision and calm judgment. Her core expertise lies in antenatal care for complicated pregnancies, labour management, and operative obstetrics. She routinely handles conditions such as pregnancy-induced hypertension, pre-eclampsia, eclampsia, gestational diabetes, cervical incompetence, placenta praevia, placental abruption, fetal growth restriction, recurrent miscarriages, and gestational trophoblastic disease. Her experience with pregnancies following two or more prior caesarean sections adds further depth to her high-risk obstetric practice. This breadth of exposure positions her as one of the best obstetricians in Millers Road for comprehensive pregnancy care. Dr.

Jayashree completed her MBBS and MD in Obstetrics and Gynaecology from M. R. Medical College, Gulbarga, under Gulbarga University. Early in her career, she served as an Assistant Professor in the Department of Obstetrics and Gynaecology, where she was actively involved in undergraduate teaching and supervised labour ward training. Her procedural expertise includes conducting normal vaginal deliveries, instrumental deliveries, and deliveries under epidural labour analgesia. She performs emergency and planned high-risk caesarean sections and has hands-on experience in internal iliac artery ligation for obstetric haemorrhage. She is well-versed in postpartum haemorrhage management and has assisted in advanced gynaecological procedures such as laparoscopic hysterectomy, myomectomy, and hysteroscopic interventions. In the outpatient setting, she regularly performs IUD insertions, Pipelle endometrial sampling, liquid-based cytology testing, and family planning counselling. She remains academically engaged through structured continuing medical education. She has attended international webinars conducted by ISUOG on pre-eclampsia and ultrasound-genetics integration, as well as national academic platforms including SAFOG OBG Paathshala, the AICC-RCOG Masterclass Series, and the WISDOM OG Webinar Series. She communicates fluently in English, Kannada, and Hindi, allowing her to engage comfortably with patients and families from diverse backgrounds and ensure clarity at every stage of care. Her expertise includes comprehensive pregnancy surveillance, operative obstetrics, haemorrhage control, and continuity-based antenatal care, which reinforces her standing as the best obstetrician in Millers Road for both routine and high-risk pregnancy management.
