

DR. KALLAPPA BALIGERI

Associate Consultant - Nephrology

Qualification

MBBS | MD (Internal Medicine) | DM (Nephrology)

Overview

Dr. Kallappa Baligeri is a dedicated Advanced Nephrology Expert at Manipal Hospital Millers Road, specialising in the diagnosis and management of complex kidney diseases. With comprehensive training in Internal Medicine and Nephrology, he has developed strong clinical expertise in treating conditions such as acute kidney injury (AKI), chronic kidney disease (CKD), glomerulonephritis, and end-stage renal disease. Dr. Kallappa is also experienced in managing patients undergoing haemodialysis, peritoneal dialysis, and renal transplantation, ensuring personalised and evidence-based kidney care for each patient. Dr. Kallappa completed his MBBS from Belagavi Institute of Medical Sciences, followed by an MD in Internal Medicine from Topiwala National Medical College and B.Y.L. Nair Hospital, Mumbai, one of India’s busiest tertiary care teaching hospitals. He further pursued a DM in Nephrology from the Institute of Nephrology-Urology (INU), Bengaluru, where he received extensive training in advanced nephrology care, renal transplant management, and interventional nephrology procedures. During his residency and speciality training, Dr. Kallappa gained broad exposure to critical care

medicine, multidisciplinary patient management, and nephrology emergencies. His clinical expertise includes managing AKI, CKD, dialysis patients, renal transplant evaluation and follow-up, and complex electrolyte disorders. He is proficient in several nephrology procedures, including insertion of dialysis catheters, native and allograft renal biopsies, and vascular access procedures. In addition, he has strong diagnostic capabilities in interpreting radiological imaging such as chest X-rays and CT scans relevant to nephrology care. Known for his patient-focused approach and strong clinical acumen, Dr. Kallappa Baligeri is committed to delivering comprehensive kidney care, early disease detection, and advanced treatment strategies for patients with kidney disorders. His dedication to continuous learning and evidence-based practice enables him to provide high-quality nephrology care and improved patient outcomes.
