

DR. GOURAB GOEL

Consultant - Urology

Qualification

MBBS | MS(General Surgery) | DNB (Urology) | MCH (Urology)

Overview

Dr. Gourab Goel is a highly accomplished and dedicated Urologist, Surgical Oncologist, and Robotic Surgeon, currently serving as a Consultant at Manipal Hospitals, Mukundapur. With over a decade of clinical experience, he has built a strong reputation for his expertise in diagnosing and managing complex urological and oncological conditions. His academic credentials are extensive—after earning his MBBS from West Bengal University of Health Sciences and MS in General Surgery from Rajasthan University of Health Sciences, he pursued further specialisation with an MCh in Urology from Utkal University and a DNB in Urology, reflecting his deep commitment to excellence in this highly specialised field. Dr. Goel's clinical practice is distinguished by his use of advanced surgical techniques, particularly robotic-assisted procedures, which enhance surgical precision, reduce recovery time, and lead to better patient outcomes. Dr. Goel's surgical expertise spans a wide array of urological procedures, including Renal Transplantation, Transurethral Resection of the Prostate (TURP), Open Prostatectomy, Urethral Stricture Repair, Transurethral Resection of Bladder Tumour (TURBT), Laser Prostatectomy, Percutaneous

Nephrolithotomy (PCNL), Kidney Stone treatments, diagnostic Cystoscopy, Ureteroscopic Lithotripsy (URSL), Retrograde Intrarenal Surgery (RIRS), and Extracorporeal Shock Wave Lithotripsy (ESWL). His proficiency in these areas and his mastery of Robotic Surgery position him as a leader in contemporary urological care. He is the best Urology Doctor in Kolkata at Mukundapur. Dr. Goel has a special interest in treating various urological cancers, including prostate, bladder, kidney, and testicular cancers. He is also adept at managing complex and rare malignancies such as urothelial carcinoma, penile cancer, Wilms' tumour, adrenocortical carcinoma, renal sarcoma, and transitional cell carcinoma. His expertise in minimally invasive and robotic surgeries has transformed cancer treatment for many of his patients, enabling tailored, effective care plans that address individual needs and improve prognosis. Beyond his clinical work, Dr. Goel is actively involved in medical research and education. He has contributed to numerous workshops and research initiatives, contributing towards the advancement of urology. One of his notable publications, "A Comparative Study of Air Pyelogram and Contrast Pyelogram for Initial Puncture Access and Its Efficacy during Percutaneous Nephrolithotomy," demonstrates his dedication to refining surgical techniques and improving patient care. His ongoing involvement in academic discourse ensures that he remains at the forefront of medical innovation. A native Bengali speaker, Dr. Goel is also fluent in Hindi and English, allowing him to connect easily with patients from diverse linguistic and cultural backgrounds. Known for his empathetic approach, excellent communication skills, and collaborative mindset, he is a valued member of the medical community. His ability to prioritise, manage time efficiently, and maintain a positive, professional attitude further enhances the quality of care he provides. Widely recognised as one of the best urologists in Mukundapur, Dr. Goel continues to deliver world-class medical care grounded in compassion, precision, and innovation.

Fellowship & Membership

- Member of the West Bengal Medical Council

Field of Expertise

- Expertise in diagnosing and treating a broad spectrum of urological and uro-oncological conditions, with a focus on precision-driven, patient-centred care.
- Specialises in the management of urological cancers, including prostate, bladder, kidney, and testicular cancer, using minimally invasive and robotic-assisted surgical techniques.
- Proficient in handling rare and complex malignancies such as urothelial carcinoma, penile cancer, Wilms' tumour, adrenocortical carcinoma, renal sarcoma, and transitional cell carcinoma.
- Skilled in performing advanced urological procedures, including Renal Transplantation, Laser Prostatectomy, PCNL, TURBT, TURP, URSL, RIRS, and ESWL.
- Strong focus on Robotic Surgery for enhanced surgical accuracy, reduced recovery time, and improved patient outcomes.
