

DR. SOUVIK NANDI

Associate Consultant – Critical Care

Qualification

MBBS | MD (Anaesthesia & Intensive Care) | DrNB (Critical Care Medicine)

Overview

Highly skilled specialist in critical care associated with Manipal Hospitals Mukundapur, dedicated to the management of critically ill patients and complex perioperative care. Academic foundation includes an MBBS, an MD in Anaesthesia & Intensive Care, a DrNB in Critical Care Medicine, and an experience in Onco-anaesthesia & Critical Care from Tata Medical Center, Kolkata. Experience across leading institutions including Apollo Multispecialty Hospital, Tata Medical Center, and Narayana Hrudayalaya RTIICS Mukundapur, where he was closely involved in two JCI accreditation cycles — reflecting strong grounding in quality and patient-safety systems. Independently performed 150–200 percutaneous dilatational tracheostomy procedures, alongside routine competence in [other bedside procedures — e.g. central/arterial line placement, POCUS, bronchoscopy-assisted procedures]. Core clinical expertise spans advanced respiratory support (NIV and invasive mechanical ventilation), continuous haemodynamic monitoring, vasoactive support, and management of severe multi-organ failure. Extensive experience managing complex medical critical care cases, including

septic shock, acute kidney injury, metabolic emergencies, and critically ill patients with multiple comorbidities. Provides compassionate, patient-centered care through specialized palliative and end-of-life care protocols. Fluent in English, Hindi, Bengali, and Punjabi, ensuring clear communication with a diverse patient population. Recognized nationally with the NBE Letter of Commendation for an outstanding thesis.

Fellowship & Membership

- Lifetime membership of ISCCM
- Indian Society for the Study of Pain (ISSP)
- Regional Society of Anaesthesiologists and Critical Care Physicians (RSACP)

Field of Expertise

- NIV & Invasive Mechanical Ventilation
- Haemodynamic Monitoring & Vasoactive Support
- Multi-organ Failure Management
- Management of Complex Medical Critical Care Cases
- Percutaneous Dilatational Tracheostomy
- Onco-anaesthesia & Perioperative Critical Care
- Palliative & End-of-Life Care
