

DR. BHUVANESHWAR US

Consultant - Pediatrics

Qualification

MBBS | MD

Overview

Dr. Bhuvaneshwara U S is a seasoned and compassionate paediatrician in Mysuru with extensive expertise in neonatal care and acute paediatric management. He is currently practising as a Consultant - Paediatrics at Manipal Hospital Mysore, bringing over 20 years of clinical experience in delivering comprehensive care across the full spectrum of child health, from newborns to adolescents. With an MD in Paediatrics from Rabindra Nath Tagore Medical College, Udaipur, followed by a Fellowship in Neonatology from Amrita Institute of Medical Sciences, Cochin, Dr. Bhuvaneshwara has developed strong clinical depth in managing both routine and complex paediatric conditions. His core areas of expertise include neonatology, paediatric infectious diseases, growth and developmental disorders, and emergency paediatrics. He is experienced in managing neonatal complications requiring close monitoring and specialised interventions, ensuring continuity of care from the neonatal period through early childhood. His structured approach to acute paediatric care allows for timely diagnosis and intervention in emergency scenarios, where clinical judgement and rapid decision-making are critical. Alongside

acute care, Dr. Bhuvaneshwara places strong emphasis on preventive paediatrics. His work involves routine immunisation, growth tracking, nutritional assessment, and early identification of developmental delays. He integrates preventive strategies into everyday clinical practice, ensuring that children receive not only treatment for illness but also guidance for long-term health and development. His expertise in preventive and developmental paediatrics contributes to his recognition as one of the best paediatricians in Mysuru, particularly for comprehensive child wellness and long-term care. He is also skilled in managing paediatric OPD and IPD services, ensuring continuity between outpatient consultations and inpatient care when required. His experience extends to paediatric nutrition and feeding practices, where he provides tailored guidance to support healthy growth patterns, especially in early childhood. In addition, his involvement in school health and community paediatrics reflects a broader understanding of child health beyond the hospital setting. Dr. Bhuvaneshwara actively participates in multidisciplinary care, collaborating with specialists across departments to manage complex paediatric conditions. A key aspect of his practice is patient and caregiver communication. He is known for his calm and approachable manner, taking the time to listen carefully, explain conditions clearly, and guide families through treatment decisions. His ability to build trust with both children and parents supports better compliance and long-term outcomes. Fluent in English, Hindi, and Kannada, he ensures clear communication across diverse patient groups. He has also undergone advanced training in areas such as paediatric advanced life support (PALS) and asthma and allergy management, further strengthening his capability in handling critical and chronic respiratory conditions in children. At Manipal Hospitals Mysore, Dr. Bhuvaneshwara U S continues to deliver structured, evidence-based paediatric care, combining clinical experience with a strong preventive focus. His work in neonatal care, emergency paediatrics, and child development positions him among the best paediatricians in Mysuru for both routine

and complex paediatric needs.
