Overview

Dr. Nivedita Shetty is a Director and Consultant of Reproductive Medicine (IVF), currently working at Manipal Hospitals, Mysore. Dr. Nivedita is skilled at handling complicated reproductive concerns, thanks to her experience working with premier institutions in India, Ireland, and the UK for more than 14 years. She is an expert on various reproductive medical topics, such as fertility testing, ovulation induction, and reproductive surgery. Dr. Nivedita has conducted more than 500 IVF cycles and has an excellent success record, helping couples achieve their dream of parenthood. Dr. Nivedita Shetty is a dedicated professional committed to continuous learning and remaining at the forefront of her field. Driven by her passion for reproductive medicine, her diverse training enables her to provide exceptional care and innovative treatments to individuals and couples facing fertility challenges. She has completed a fellowship in Reproductive Medicine at the National Board in New Delhi. She is also a member of the Royal College Of Surgeons (MRCS) and a Fellow of the

Royal College of Obstetricians and Gynaecologists (FRCOG). Beyond her clinical practice, Dr. Nivedita Shetty actively contributes to medical education and research through seminars and teaching students pursuing the Fellowship in Reproductive Medicine conducted by Rajiv Gandhi University and the National Board, of Delhi. Her co-authorship of chapters and textbooks reflects her commitment to sharing knowledge and advancing the field of reproductive medicine. Dr. Nivedita Vishwanath Adapa actively participates in audits, journal meetings, and case discussions at the Bangalore Assisted Conception Centre. Her dedication to staying updated with the latest advancements in reproductive medicine allows her to incorporate cutting-edge techniques and evidence-based practices into her treatment approach. No wonder Dr. Nivedita Shetty is considered one of the top reproductive medicine experts in Mysore. With her exceptional qualifications, vast experience, and dedication to advancing reproductive medicine, Dr. Nivedita Shetty is known for her compassionate and empathetic approach towards patients and, her understanding emotional and psychological challenges of infertility. She believes in providing comprehensive support and counselling to couples, ensuring they feel comfortable and well-informed throughout their fertility treatment journey. Patients may rely on her competence to deliver all-inclusive, sensitive treatment that supports their reproductive objectives. Moreover, Dr. Nivedita Shetty speaks English, Hindi, Arabic, Kannada, Tulu, Marathi, and Gujarati fluently, enabling her to interact with patients from various socioeconomic backgrounds. Patients, peers and colleagues admire Dr. Nivedita for her knowledge and genuine care for her patients's welfare. With the doctor by their side, individuals facing infertility can find solace in knowing they receive the highest standard of care from a competent professional dedicated to helping them achieve their dream of building a family.
