

DR. VENUGOPAL KRISHNA KS

Senior Consultant - Neurology

Qualification

MBBS Govt. Medical College (MMC), Mysore | MD Swami Man Singh Medical College, Jaipur | DM Neurology NIMHANS

Overview

Dr. Vengopal Krishna K S is a distinguished and seasoned neurologist in Mysuru with deep expertise in stroke care and clinical neurophysiology. He is currently practising as a Senior Consultant - Neurology at Manipal Hospital Mysore, bringing over 25 years of extensive experience in the diagnosis and management of a wide spectrum of neurological disorders. With a strong academic foundation, he completed his MBBS from Mysore Medical College, followed by an MD in General Medicine from SMS Medical College, Jaipur, and a DM in Neurology from NIMHANS, Bengaluru, one of the country’s leading institutes for neurological sciences. Dr. Vengopal Krishna’s clinical expertise spans general neurology, with particular focus on stroke management and headache disorders. His experience in evaluating and managing neurological conditions allows him to approach each case with clarity, especially in situations that require detailed clinical assessment and longitudinal care. His work in stroke care, including early diagnosis and structured management, contributes to his standing as one of the best neurologists in Mysuru, particularly for conditions requiring timely intervention and ongoing neurological monitoring. In addition to clinical

evaluation, he is skilled in neurodiagnostic procedures such as electroencephalography (EEG) and nerve conduction studies, which play a crucial role in assessing neurological function and guiding treatment decisions. His expertise in these diagnostic modalities enables accurate identification of underlying neurological conditions, supporting targeted and evidence-based management plans. Dr. Vengopal Krishna follows a holistic clinical philosophy, focusing on the patient as a whole rather than isolated symptoms. His approach integrates physical, mental, and social aspects of health, ensuring that neurological care is both comprehensive and patient-centred. He places strong emphasis on clear communication, helping patients and their families understand the condition, expected course, and management options, which is particularly important in chronic neurological disorders. Alongside his clinical work, he has contributed significantly to academic medicine, having served as an Associate Professor with over 12 years of teaching experience. His involvement in training medical students and residents reflects his commitment to knowledge sharing and the development of future clinicians in neurology. He has also participated in academic activities such as CMEs and delivered talks on platforms including All India Radio, contributing to public awareness and professional education in neurology. At Manipal Hospital Mysore, he continues to provide structured, evidence-based neurological care, combining clinical experience with a thoughtful and patient-focused approach. His expertise in stroke management, headache disorders, and neurodiagnostics positions him among the best neurologists in Mysuru for comprehensive neurological evaluation and long-term care.
